The Management Of Correctional Institutions:

The Management of Correctional Institutions Marilyn D. McShane, Franklin P. Williams, 1993 Section 1 pages 1 to 68 presents an overview of the literature on prison management and the results of a national survey of wardens which enquired into actual management styles problem solving techniques and decision making approaches The national survey aimed to determine how much the literature reflected the wardens management practices Findings showed that corrections management largely reflects the literature in that it has inconsistencies an emphasis on personnel experience and an inward focus These results were used to develop a perspective focusing on a humane and caring relationship between manager and staff Section 2 pages 72 to 301 contains abstracts of the 100 most important works both essay and research on correctional institution management

part in the prisoners process of reintegration and rehabilitation In order for the management to be strengthened all the staff needs to understand their role within the prison whom they should report to and be able to meet the needs of the service users i e the inmates society and victims *Testimony Taken Before the Senate Committee on Cities Pursuant to Resolution Adopted January 20, 1890* ...
