Dutch resident Bernard W Rees takes us to the Philippines in The Manila Galleon and to China along the Silk Road and over the Himalayas into Pakistan in The Last Patriot Born in Llanelli in Wales Rees has seen his fair share of the world He grew up in Kampala Uganda and Nairobi in Kenya At sixteen he went to sea and got his first taste of the Orient He emigrated to Canada in his early 20s where he traded ships and cargo for many years from the Americas to the Persian Gulf China Japan and Korea Following the death of his first wife in 1995 Rees decided he needed to change my life and do something new He sold his shipping business and moved to Manila where in his spare time he searched for Spanish treasure ships This is when he developed another talent he pens a good yarn The main character of The Manila Galleon is Peter de Vries a rogue CIA agent Of course rogue CIA agents are common in thrillers these days and one who has lost his memory isn't that original either But what really matters is that Rees makes something of this character in this page turning thriller with a twist De Vries gets involved in the salvage of a 17th century Spanish treasure ship while at the same time he must avoid the CIA and discover the significance of his dreams about the Galleon and its fatal encounter with Dutch privateers The sole survivor was a Dutch prisoner Captain Jeroen de Vries Rees wrote his second novel while living in the US from 2003 to 2005 The CIA is there again but this time the main setting is China This book is heavier than Galleons as it deals with the major problems facing the world today energy security terrorism and the looming potential of conflict between the US and China The hero if that is the correct term is Owen O'Brien a cynical alcoholic journalist and the heroine is an idealistic young doctor working with orphaned AIDS children in China Written as a memoir to his daughter the book recounts how O'Brien comes into possession of secret documents outlining a plan to attack the US The CIA which will never hire Rees to do its PR is again the bad guy as

it joins forces with the Chinese to stop O'Brien fleeing with the papers. If this was Hollywood the hero would save the day at the last minute. But Rees, a world-wise expat, doesn't go for sugar-coated endings. Not to give too many secrets away. The Manila-Acapulco Galleons: the Treasure Ships of the Pacific Shirley Fish, 2011-05-18. During the sixteenth to the nineteenth centuries the transpacific treasure galleons sailed annually from Manila to Acapulco. In Manila the vessel was loaded with the scented spices of the East, luxurious silks from China, exquisite hand-crafted lacquerware from Japan, and a multitude of Oriental goods that the Spaniards of New Spain longed to own. The returning galleon from Acapulco to Manila carried as much as 2.5 million silver pesos in payment of the goods sent to the New Spain in the previous year, as well as a yearly silver subsidy of 250,000 reales for the maintenance of the colonial government in the Philippines. But while the galleons mainly sailed alone and unaccompanied from Manila to Acapulco and vice versa, they were vulnerable to a host of calamities and misfortunes. A fire on board the vessel or a terrifying storm could end the voyage and the lives of every one on the ship even before the galleon was able to reach land. Additionally, the commanders of the galleons were always threatened by lurking pirates and privateers who preyed on the vessels and coveted the treasures they carried. The book describes in detail how the galleons were attacked at sea and how they fought against enemy vessels, as well as how many of the ships sank or were shipwrecked over the years. It also covers their management, construction, manning, weaponry, navigation, daily life on the ship, provisions, cargoes, and voyages. The book contains an annotated list of the galleons sailing between the Philippines and Mexico from 1565 to 1815. This informative book is the first of its kind to cover such an expansive history of the Pacific galleons, which up to this point had remained largely untold. **Sources on the Manila galleon from the Archivo**

Studies of the trade between the Atlantic World and Asia during the sixteenth and seventeenth centuries typically focus on the exchanges between Atlantic European countries, especially Portugal, the Netherlands, and England, and Asia across the Cape route. In *The Atlantic World and the Manila Galleons: Circulation, Market, and Consumption of Asian Goods in the Spanish Empire, 1565-1650*, Jos L. Gasch-Tomás offers a new approach to understanding the connections between the Atlantic World and Asia. By drawing attention to the trans-Pacific trade between the Americas and the Philippines, the re-exportation of Asian goods from New Spain to Castile, and the consumption of Chinese silk, Chinese porcelain, and Japanese furnishings in New Spain and Seville, this book discloses how New Spanish cities and elites were main components of the spread of taste for Asian goods in the Spanish Empire. This book reveals how New Spanish family and commercial networks channelled the market formation of Asian goods in the Atlantic World around 1600. European Entry into the Pacific Dennis O. Flynn, Arturo Giráldez, 2017-09-08. World history conventionally ignores or underestimates the importance of Manila, the Manila galleons, and the Philippines as key stages in the development of trans-Pacific contact and of

the world economy Essays in this volume discuss Philippine Asian exchanges prior to the entry of Europeans and then look at European influences and the impact of Magellan's voyage and the emergence of Manila as one of global trade's crucial linchpins during four centuries Linkages between Latin America and China and Spanish Japanese competition for the Chinese marketplace are important topics Tensions and cooperation among Chinese Japanese Iberians Africans Christians Muslims and others on Philippine soil are also covered This volume suggests the need for thorough re-evaluation of the Philippines central role in terms of both Pacific history and global history as perhaps the single most important stage in the traffic that linked China and Latin America      **Portuguese Intervention in the Manila Galleon Trade** Etsuko

Miyata,2017-02-28 In this study of the Portuguese intervention in the Manila Galleon Trade Etsuko Miyata explores its history through a new approach the examination of Chinese ceramics      *Portuguese Merchants in the Manila Galleon System* Cuauhtémoc Villamar,2020-12-16 Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century The rise of Manila as a crucial transshipment port was not a spontaneous incident Instead it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system a trading mechanism that lasted two and half centuries from 1565 until 1815 Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions predictability to the transportation and security to the stakeholders He looks both at the Spanish crown strategy in Asia and the emergence of a network of Portuguese merchants located in Manila and active in the long distance trade This informal community of merchants participated from the inception of the trading system across the Pacific with connections between Europe ports in Asia under the control of Portugal the Spanish colonies in America and the city of Manila From its inception the newly founded capital of the Philippines became a hub of connections attracting part of the trade that already existed in Asia Surveying the Portuguese commercial networks from the Estado da Índia across the Spanish lake this book sheds light on the early modern globalization from a truly comprehensive Iberian perspective This is a valuable resource for scholars of Pacific and Iberian trade history and the maritime history of Asia      *The Archaeology of Manila Galleons in the American Continent* Scott S. Williams,Roberto Junco,2021-07-26 This is the first book devoted to the topic of Manila galleon shipwrecks in North America previous research on Manila galleons either has focused on the economics of the Manila galleon trade or has been limited to reports of the galleon wreck sites in the western Pacific salvaged for their cargoes All three North American shipwrecks are protected under the historic preservation laws of the United States or Mexico and each shipwreck site has been investigated by professional archaeologists seeking to answer research questions posed in peer reviewed research designs The majority of Manila galleon wrecks are found in the western Pacific and were salvaged by treasure hunters rather than recovered by archaeologists The three North American shipwrecks represent the most protected Manila galleon archaeological sites so their potential for

future archaeological research is higher than for many of the extant shipwrecks of the western Pacific
