s Jake to tackle social issues of the day with a light hand and to develop many of the themes he would explore in his later  
novels This study analyzes these popular radio plays their Prairie and literary roots the production process and their  
contribution and critical reception

**Writing in Dust** Jenny Kerber, 2011-03-17 Writing in Dust is the first sustained study  
of prairie Canadian literature from an ecocritical perspective Drawing on recent scholarship in environmental theory and  
criticism Jenny Kerber considers the ways in which prairie writers have negotiated processes of ecological and cultural  
change in the region from the early twentieth century to the present The book begins by proposing that current  
environmental problems in the prairie region can be understood by examining the longstanding tendency to describe its  
diverse terrain in dualistic terms either as an idyllic natural space or as an irredeemable wasteland It inquires into the  
sources of stories that naturalize ecological prosperity and hardship and investigates how such narratives have been  
deployed from the period of colonial settlement to the present It then considers the ways in which works by both canonical  
and more recent writers ranging from Robert Stead W O Mitchell and Margaret Laurence to Tim Lilburn Louise Halfe and  
Thomas King consistently challenge these dualistic landscape myths proposing alternatives for the development of more  
ecologically just and sustainable relationships among people and between humans and their physical environments Writing in  
Dust asserts that reading environmentally can help us to better understand a host of issues facing prairie inhabitants today  
including the environmental impacts of industrial agriculture resource extraction climate change shifting urban rural  
demographics the significance of Indigenous understandings of human nature relationships and the complex often  
contradictory meanings of eco cultural metaphors of alien invasiveness hybridity and wildness
