Casey B. Mulligan,Xavier Sala-i-Martin,1995 In this paper we construct a set of human capital indexes for the states of the United States for each Census year starting in 1940 In order to do so we propose a new methodology for the construction of index numbers in panel data sets Our method is based on an optimal approach by which we choose the best set index numbers by minimizing the expected estimation error subject to some search constraints Some of the empirical findings are that the stock of human capital in the United States grew twice as rapidly as the average years of schooling and that human capital inequality across states went up during the 1980s while the dispersion of schooling actually fell We conclude that using the average years of schooling for the empirical study of existing growth models may be misleading      *Brands and Their Companies* ,2003      **A History of Radio Pakistan** Nihal Ahmad,2005 This book is the first authentic account of the history of Radio Pakistan PBC It is a vehicle for ventilation of aspirations and grievances leading directing and mobilizing the nation towards set goals The detailed and comprehensive information provided by this work covers all of Radio Pakistan that can be resourceful It emphasises the role that radio can play as an instrument of change as trendsetter and a development support communication system      *The Heating and Ventilating Magazine* ,1917      *The 3 Detectives and the Missing Superstar* Simon Brett,1986 The disappearance of Britain s leading rock star begins an investigation by the Three Detectives      *Coates's Herd Book* Henry Strafford,1986      **How to Reach Your Favorite Superstar** Larry P.
