The Man Who Walked In His Head:

The Man Who Lost His Head Douwe Draaisma, 2025-08-12 Blending neuroscience and ruminations on the creation and limits of reality a remarkable investigation of disorders of the mind and how we experience them In *The Man Who Lost His Head* Douwe Draaisma explores some of the most bizarre and intriguing brain disorders throughout history From patients who believe their loved ones have been replaced by doubles or who feel an arm stretched out sideways that was amputated years ago to those who insist they're dead or have had their heads replaced these cases reveal the mind's complex way of imposing order amid chaos Draaisma examines syndromes like Cotard's and Capgras where sufferers' perceptions of self and reality are radically altered linking delusions to specific brain circuits and cultural context With engaging storytelling and sharp insights he offers a captivating look at the human mind's remarkable and often mysterious workings

The Man With His Head in the Clouds Richard O. Smith, 2015-10-07 Hilarious enlightening and inspiring *The Man with His Head in the Clouds* is anything but ordinary Smith has artfully created a category defying juxtaposition of historical biography and autobiographical recovery story fun and accessible *The Psychologist* All human life is here served up with a light touch and keen sense of the ridiculous Dr Lucy Worsley Pure pleasure A brilliant blend of biography and self help and a bold book about ballooning *The Man with His Head in the Clouds* is nothing less than a trip

Frances Wilson This is the story of how an uneducated Oxford pastry cook became the first Englishman to fly in a self built balloon powered by primitive and potentially lethal hydrogen Despite taking off in force 8 gales crashing into hills and plopping into the Irish Sea James Sadler became a rare pioneering aeronaut to survive such perilous ascents Good luck was not hereditary his son's balloon fatally collided with a chimney Sadler advanced the scientific evolution of lighter than air flight and took part in both of the famous races that so captivated the public in late eighteenth century Europe across the Channel and the Irish Sea He earned Lord Nelson's endorsement for improving the Royal Navy with applied science created one of the first perhaps the very first mobile steam engines and was revered by fans like Percy Shelley and Dr Johnson Yet even the brightest stars one day collapse as Sadler's name emits virtually no light today Like Sadler Richard O Smith emanates from Oxford's Town not Gown Like Sadler he wants to look down on Oxford literally and his admiration for the balloonist culminates in him replicating the first ever flight also over Oxford But there is a problem The author suffers from acute acrophobia a crippling fear of heights This prevents him from standing on a stool yet alone dangling at 3 000 feet beneath an oversized party balloon To overcome his chronic height anxiety he seeks pre flight counselling learning all about current understanding of phobias and anxieties Here he discovers that he is also bathmophobic a fully functioning adult who is afraid of stairs Inspired by Sadler Smith sets out to overcome his debilitating fear and ascend in a balloon over Oxford Be positive You just need a will to do it counsels a psychologist So taking that advice he starts positively by making a will
