The Making Of A Stockbroker:

The Making of a Stockbroker Edwin Lefevre, 1925 *The Making of Stockbroker* Edwin Lefèvre, 1975 **The stockbroker's handbook** E. E. Kennedy, 1892 **Harvard Law Review**, 1894 **A Treatise on the Law of Stock Brokers** Arthur Biddle, George Biddle, 1882 **Lowry, Rawlings and Merkin's Insurance Law** Rob Merkin KC, 2022-09-22

The 4th edition of this leading introductory text now under the sole authorship of Rob Merkin KC provides a detailed examination of the developing law of insurance combining exposition of the law with critical analysis. The book is designed primarily for undergraduate and postgraduate students but is also a useful resource for those in the insurance industry studying for professional examinations and legal practitioners who need a concise guide to the legal principles. The text is enhanced by extensive citations to case law and academic commentaries and a new companion website delivers annual case law updates. This new edition has been substantially rewritten in light of the transformation of insurance law in recent years. The text has been revised to include new legislation and coverage of the effects of Brexit. However, the approach and where possible the analysis of John Lowry and Philip Rawlings have been retained. The first part of the book considers the regulation of insurance business and the general principles underlying the law of insurance contracts. The second part examines the way those principles are shaped by the context in which they operate. A new chapter with case studies on COVID 19 earthquakes and mesothelioma applies the principles to the problems and uncertainties for insurance law revealed by catastrophic losses. This authoritative text offers a sound grasp of the current realities of insurance practice.

Marine Insurance Fraud Baris Soyer, 2014-07-25. This book provides a comprehensive and coherent legal analysis of the impact of fraud on the position of various parties to a marine insurance contract as well as the cover provided by standard marine policies. The issues under discussion in this invaluable guide are also equally relevant in the context of non marine insurance contracts. Helpfully divided into two parts, the first part deals with the impact of fraud committed by parties to an insurance contract, i.e. the assured brokers and insurers. The second part analyses the extent to which standard marine policies cover the fraudulent and dishonest activity of third parties to an insurance contract. This book will be of huge practical assistance to practitioners specialising in marine insurance as well as insurance generally and to professionals, academics and post graduate students.
