Kamusella, 2014-12-22 After 1918 Central Europe's multiethnic empires were replaced by nation states which gave rise to an unusual ethnolinguistic kind of nationalism This book provides a detailed history and linguistic analysis of how the many languages of Central Europe have developed from the 10th century to the present day      **The Making of Language** Mike Beaken, 1996 An introduction to the evolution of language from gestural communication to the development of complex syntax Beaken synthesizes advances in scientific knowledge based on archaeological and fossil evidence primate study and new techniques in historical language analysis and re-examines language origins from the point of view of a linguist Countering Pinker's *The Language Instinct* Beaken refutes claims for an innate biological capacity for language and demonstrates that both the origin and form of language can be explained in terms of human activity He shows how human beings made their own language in the process of collective labour and the social interactions and relations which surround the immediate tasks for the survival of human groups      **The Conduct of Linguistic Inquiry** Rudolf P.
