**The Man in My Basement** Walter Mosley,2004 Mosley departs from his Easy Rawlins mysteries for this thought provoking novel Charles Blakey is a young black man whose life is slowly crumbling When a mysterious white man offers to rent Charles s basement for the summer Charles embarks on a journey into inconceivable worlds of power and manipulation and unimagined realms of humanity

The Twenty-first Century African American Novel and the Critique of Whiteness in Everyday Life E. Lâle Demirtürk,2016-05-25 This book examines the post 9 11 African American novels developing a new critical discourse on everyday discursive practices of

whiteness The critique of everyday life in the racial context of post 9 11 American society is important in considering diverse forms of the lived experiences and subjectivities of black people in the novels They help us see that African American representations of the city have political significance in that the neo urban novel explores the possibility of a black dialogic communication to build a transformative social change Since the real power of Whiteness lies in its discursive power the book reveals the urgency to understand not only how whiteness works in everyday life in American society But it also explores how to cultivate new possibilities of configuring and performing Blackness differently as a response to the post 9 11 configurations of the culture of fear to produce new ways of interactional social relations that can eventually open up the space of critical awareness for white people to work against rather than reinforce discursive practices of White supremacy in everyday life This book explores how the multiple subjectivities and transformative acts of blackness can offer ways of subverting the discursive power of the white embodied practices What defines post 9 11 America as a nation that is consumed by the fear of racialized terrorists is its roots in the fear of uncontrollable Blackness as excess and ominous threat in the domestic terrain through which the ideology of White supremacy has constructed for governing through Whiteness African American urban novels published in the twenty first century respond to the discursive power of normative Whiteness that regulates black bodies selves and lives This book demonstrates how black people contest white dominant social spaces as sites of black criminality and exclusion in an attempt to re signify them as the sites of black transformative change through personal and grassroots activism through their performativity of Blackness as an agential identity formation in their interpersonal urban social encounters with white people Hence the vulnerable spaces of Whiteness in interracial urban encounters as it pervasively addresses those moments of transformative change enacted by Black characters in the face of the discursive practices of whiteness in the everyday life These novels celebrate multifarious representations of black individuals who are capable of using their agency to subvert White discursive power in finding ways in their personal and grassroots activism to transform the culture of fear that locates Blackness as such in an attempt to make a difference in the American society at large

*Understanding Walter Mosley* Jennifer Larson, 2016-10-31 A survey of an award winning author's extensive corpus written across a broad range of genres Walter Mosley is perhaps best known for his first published mystery Devil in a Blue Dress which became the basis for the 1995 movie of the same name featuring Denzel Washington Mosley has since written more than forty books across an impressive expanse of genres including but not limited to nonfiction science fiction drama and even young adult fiction garnering him many honors including an O Henry Award an Anisfield Wolf Book Award a Grammy Award a Pen Center Lifetime Achievement Award and two NAACP Image Awards for Outstanding Literary Work in Fiction In Understanding Walter Mosley Jennifer Larson considers Mosley's corpus as a whole to help readers more fully understand the evolution of his literary agenda All Mosley's texts feature his trademark accessibility as well as his penchant for creating narratives that both entertain and instruct Larson examines how Mosley's

writing interrogates complicates and contextualizes recurring moral social and even personal questions She also considers the possible roots of Mosley s enduring popularity with a diverse group of readers Larson then traces key themes and claims throughout the Easy Rawlins series to show how Mosley s beloved hero offers unique perspectives on race class and masculinity in the mid to late twentieth century explores the ways in which Fearless Jones Mosley s second detective both builds on and diverges from his predecessor s character and looks at how the works featuring Leonid McGill Mosley s junior detective center on understanding the complex relationship between present day social dilemmas and the personal as well as the communal past Regarding Mosley s other genres Larson argues that the science fiction works together portray a future in which race class and gender are completely reimagined yet still subject to an oppressive power dynamic while his erotica asks readers to reconsider the dynamics of power and control but in a more personal even intimate context Similarly in Mosley s nongenre fiction stories are revived through a reconnection with the past a reclaiming of cultural heritage and lineage and a rejection of classist visions of power Finally Mosley s nonfiction which persuades his audience to act through writing humanitarian efforts or social uprising offers a mix of lessons aimed at guiding readers through the same questions that inform his fiction writing
