The Egyptian Army In Politics Pattern For New Nations:

The Egyptian Army in Politics Panayiotis J. Vatikiotis,1961 The old order is dying rapidly in Arab countries but has not been completely replaced The army has emerged as the most progressive element in Arab society today partially because it is willing to seek empirically rational solutions and to push Arab society into the modern age The revolutionary method of change appears to have been chosen by the army elite in the light of the failure of representative government The new power elite of army officers seems to provide for the first time a basis for political integration and consensus Political life in Egypt will never be as it was prior to taking over power by the army but that the claim of the army officers to be leading a revolution which will completely change Arab political community and society has yet to be proven [Military Institutions and Coercion in the Developing Nations](#) Morris Janowitz,1988-02-29 This book includes Janowitz's seminal work **The Military in the Political Development of New Nations** with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations

strengths and limitations **Britain, Egypt, and Iraq during World War II** Stefanie Wichhart,2021-08-26 This book explores the tumultuous war years through the lens of the British Embassies in Cairo and Baghdad demonstrating the role that the Second World War played in shaping the political and social map of the contemporary Middle East The war served as a catalyst for seismic changes in Arab society and the emergence of new movements that provided powerful critiques of British intervention and of the governments that facilitated it making the war a critical turning point in Britain's empire in the Middle East *Military Institutions and Power in the New States* William Gutteridge,1965 *The Effects of American Foreign Aid to Egypt, 1957-1987* Abdul Karim Bangura,1995 Contains a review of the past literature on the subject the subject methodology and both macro and micro level data analysis with summary conclusions and recommendations Employing a mixture of quantitative qualitative and inductive methodology this book examines those factors that dictated Egypt's economic development from 1957 to 1987 and then investigates a major unanswered question Has the longevity and increase in American aid facilitated overall economic development increased productivity and standards of living in Egypt

Ethnic Humor Around the World Christie Davies,1990 Features a scholarly study of various societies hostile humor This book takes a serious look at humor drawing on the work of psychologists folklorists and philosophers but also is intended for those who are curious as to why we laugh at ethnic jokes *The Armed Bureaucrats* Edward Feit,1972 Dr Feit begins his book by presenting his chief theoretical contribution armies when they become modernized and bureaucratized can come to have the same concerns for order and efficiency as do civilian administrators The author then illustrates how military regimes exhibit cyclical tendencies first military officers occupy principal offices in the state followed by a period when civilians play an increasingly important role as technocrats and administrators This phase of cohesion without consensus is followed by a state of political stasis founded on mutual acceptance of the new rulers by competing and often antagonistic social groups that nevertheless derive or hope to derive some benefit from the regime But military governments are ultimately wrecked by the social forces that made them necessary and for the same reason an inability to mediate among clashing hostile social groupings and to build real coalition among them These ideas are refined with the aid of six case studies of military regimes of significant duration in different time periods and in different cultures In its theorizing and its search for generalizable propositions the book breaks new ground and should lead to additional research using comparative data on both the bureaucratization of armies and the performance of military governments *Akten Des ...*

Internationalen Orientalisten-Kongresses ,1970 **Political Systems of the Middle East in the 20th Century** W. F. Abboushi,1970 Examines eight Middle Eastern countries in detail with the primary focus on Israel Turkey and Egypt **The Government And Politics Of The Middle East And North Africa** David E. Long,Bernard Reich,1995-08-03 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both

international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists

Human Factors in Civic Action Robert J. Foster,1963 **National Union Catalog** ,1956 Includes entries for maps and atlases *Politics in the Middle East* James A. Bill,Robert Springborg,1994 This work examines the issues problems and processes found in the politics of the region in an analytical framework It looks at particular events which have cut across the region both chronologically and geographically It also focuses on a number of changes in ideologies patterns of authority and political economies of Middle Eastern states democracy and human rights expanding Islamic activism responses by governments to both these trends substandard economic growth and the region s high level militarization
