The EU Adaptation Strategy 2013 Amelia Martha Matera,2018-10-01 Essay from the year 2018 in the subject Politics Environmental Policy grade A University of Malta Institute for European Studies language English abstract Climate policy for the European Union EU was irrelevant until the 70s it became a topic on the political agenda only in the 80s and today its policy includes adaptation The European Union recognises that some of the impacts of climate change caused by past emissions are irreversible The policy responses of climate change are adaptation and mitigation The main reason for a weak adaptation strategy in mid 80s and 90s was the reluctance of the Member States MS to give up power to the supranational institutions But it was only when the IPCC report put emphasis on adaptation arguing that it should concern even industrialized countries and not only Developing countries DC that things started to change The EU has adopted in 2013 the Adaptation Strategy which has been strengthened since the 5th National Communication The aim of this paper is to critically assess EU s current trends in adaptation actions as well as future adaptation requirements In order to reach this goal this paper will rely on two main documents sixth EU s National Communication to the UNFCCC and to the correspondent UNFCCC s in depth review The first part will give a brief overview of the EU adaptation strategy its development and the main official documents the second part is a more detailed analysis and criticism on the actions described in the current EU adaptation strategy Before the conclusion the main criticism will be highlighted and the future adaptation requirement outlined *Foundations of Object-Oriented Programming Using .NET 2.0 Patterns* Christian Gross,2006 Includes coverage on NET Generics NET 2 0 and coverage of both Open Source and Closed Source libraries and applications Based on C code examples that work on multiple platforms e g Linux Windows etc Focuses on solving problems in short and easy to digest segments
