Sports Law was the topic of the international Conference on The Concept of Lex Sportiva Revisited which took place in Jakarta in late 2010. Modern Sports Law Jack Anderson, 2010-10-26. The aim of this book is to provide an account of how the law influences the operation, administration and playing of modern sports. Although the book focuses on legal doctrine it has been written bearing in mind sport's historical, cultural, social and economic context including the drama and colour of sport's major events and leading personalities. And although it is inevitably very much concerned with elite professional sports it is not dominated by them and seeks to cover the widest possible range of sports, professional and amateur. Initially the book

addresses practical issues such as the structures of national and international sport and examines the evolution of the body of law known as sports law. Thereafter three main themes are identified: regulatory, participatory and financial aspects of modern sport. The regulatory theme is dealt with in chapters considering the manner in which decisions of sports governing bodies may be challenged in the ordinary courts and the development of alternative dispute resolution mechanisms in sport. The participatory theme includes the legal regulation of doping and violence in sport as well as the broader topic of tortious liability for sporting injuries. The financial theme reflecting the enhanced commercialisation of sport at all levels is developed in chapters concerning issues in applied contract and employment law for players and legal matters surrounding the organisation of major sports events. The conclusion summarises modern sport's experience of EU law pointing the way to the future direction of sports law more generally. While the book is aimed primarily at students and is designed to cover fundamental and topical areas of sports law: sports law in general, sports bodies and the courts, arbitration in sport, corruption, doping, violence, civil liability, discrimination, the commodification of modern sport and the likely future of sports law, it should also prove of wider interest to practitioners, sports administrators and governing bodies and though focused primarily on UK law it will also appeal to readers in Australia, Canada, New Zealand and the USA.
