"She is the sweet I have to ride,  
With the white blanket white by my side;  
She, now, from the drivings of men,  
By the veldt's heat and the bushveld's glee,  
By the veldt's winds, where the wind plays—  
The gey, the gey, and the bushveld gey;  
Where the gey and the veldt veld,  
By the gey of the gey veld veld veld veld."

**Scenes and occupations of country life** Edward Jesse,1875

*Hounds in the Morning* Carl B. Cone,2014-07-15 Across the rolling countryside of Regency England sound the call of the horn and the chorus of hounds as huntsmen hounds and horses tear across fields and leap fencerows in ardent pursuit of Reynard In a field outside London two brawny men strip to the waist and prepare to batter each other to a pulp for the pleasure of the Fancy the hundreds of boxing fans who have ridden from all over England to see and bet on the illegal match And through the streets of a country town the lads rough and tumble in a wildly joyous game of football while the populace cheers and the shopkeepers board up their windows Such were the sights and sounds of the sporting life of England a hundred and fifty years ago This sparkling collection of articles from the Sporting Magazine dating from 1792 to 1836 attests to the vigor and variety of English sports in that era The equestrian sports of fox and stag hunting thoroughbred racing and coaching were largely the passion of the landed classes while all ranks of the populace relished bloody contests that set man against man or animal against animal boxing cock fighting bull baiting rat killing Throughout the land team sports such as football and cricket along with such individual activities as pedestrianism shooting archery and skating allowed men and women of all walks of life to test their muscles their endurance and their nerve All these people and events filled the pages of the Sporting Magazine the first periodical devoted exclusively to sports Carl Cone provides a historical framework for these lively accounts by the first sport journalists In addition more than fifty engravings from the heyday of sporting art illustrate the exuberance of the time

*Pierson v. Post, The Hunt for the Fox* Angela Fernandez,2018-09-27 The 1805 New York foxhunting case Pierson v Post has long been used in American property law classrooms to introduce law students to the concept of first possession by asking how one establishes possession of a wild animal In this book Angela Fernandez retells the history of the famous fox case from its origins as a squabble between two wealthy young men on the South Fork of Long Island through its appeal to the New York Supreme Court and entry into legal treatises law school casebooks and law journal

articles where it still occupies a central place Fernandez argues that the dissent is best understood as an example of legal solemn foolery Yet it has been treated by legal professionals the lawyers of its day and subsequent legal academics in such a serious way demonstrating how the solemn and the silly can occupy two sides of the same coin in American legal history
