## Spring Snow:

**Spring Snow** Yukio Mishima, 2010-02-23 Tokyo 1912 The closed world of the ancient aristocracy is being breached for the first time by outsiders rich provincial families a new and powerful elite Kiyooki has been raised among the elegant Ayakura family members of the waning aristocracy but he is not one of them Coming of age he is caught up in the tensions between old and new and his feelings for the exquisite spirited Satoko His devoted friend Honda watches from the sidelines It is only when Satoko is engaged to a royal prince that Kiyooki realises the magnitude of his passion An austere love story probably my favourite of his novels David Mitchell Independent on Sunday Mishima's best work unnerving as it may be still casts a spell and I suspect it will retain its dark radiance Guardian Ski, 1979-03 **Ski**, 1976 *Remote Sensing of Sea Ice and Icebergs* Simon Haykin, Edward O. Lewis, R. Keith Raney, James R. Rossiter, 1994-10-28 Describes the latest remote sensing technologies used to detect ice hazards in the marine environment map surface currents sea state and surface winds study ice dynamics over ice transportation oil spill countermeasures climate changes and ice reconnaissance Includes such technologies as acoustic sensing ice thickness measurement passive microwave remote sensing ground wave and surface based radars **Vegetation, Water, Humans and the Climate** Pavel Kabat, Martin Claussen, Paul A. Dirmeyer, John H.C. Gash, Lelys Bravo de Guenni, Michel Meybeck, Roger Pielke, Charles J. Vörösmarty, Ronald W.A. Hutjes, Sabine Lütkeemeier, 2012-12-06 A state of the art overview of the influence of terrestrial vegetation and soils within the Earth system The text deals especially with interactions between the terrestrial biosphere and the atmosphere via the hydrological cycle and their interlinkage with anthropogenic activities Measurements gathered in integrated field experiments in the Sahel the Amazon North America and South east Asia confirm the importance of these interactions Observations are complemented by modelling studies including regional models that simulate flows and transport in river catchments coupled land cover and regional climate systems and Earth system and global circulation models Water nutrient and sediment fluxes in river basins are also discussed and are shown to be highly impacted and regulated by humans through land use pollution and river engineering Finally the book discusses environmental vulnerability and methodologies for assessing the risks associated with regional and global climatic and environmental variability and change The results reported in this book are based on the research work of many individual scientists and teams around the world associated with the objectives of the IGBP BAHC and WCRP GEWEX international research programmes **Microwave Remote Sensing of Sea Ice** Frank D. Carsey, 1992-04-08 Published by the American Geophysical Union as part of the Geophysical Monograph Series Volume 68 Human activities in the polar regions have undergone incredible changes in this century Among these changes is the revolution that satellites have brought about in obtaining information concerning polar geophysical processes Satellites have flown for about three decades and the polar regions have been the subject of their routine surveillance for more than half that time Our observations of polar regions have evolved from happenstance ship sightings and isolated harbor icing records

to routine global records obtained by those satellites Thanks to such abundant data we now know a great deal about the ice covered seas which constitute about 10% of the Earth's surface This explosion of information about sea ice has fascinated scientists for some 20 years We are now at a point of transition in sea ice studies we are concerned less about ice itself and more about its role in the climate system This change in emphasis has been the prime stimulus for this book     **Polar and Alpine Microbiological and Biogeochemical Processes in the Warming World** David Anthony Pearce,Alexandre Anesio,2021-07-01     **Annual Report** Iowa.
