Springs And Autumns:

Commentarial Transformation of the Spring and Autumn, The Newell Ann Van Auken, 2016-10-24 Shows how the text evolved from a non narrative historical record into a Confucian classic The Spring and Autumn is among the earliest surviving Chinese historical records covering the period 722 479 BCE It is a curious text the canonical interpretation claims that it was composed by Confucius and embodies his moral judgments but this view appears to be contradicted by the brief and dispassionate records themselves Newell Ann Van Auken addresses this puzzling discrepancy through an examination of early interpretations of the Spring and Autumn and uncovers a crucial missing link in two sets of commentarial remarks embedded in the Zu Tradition These embedded commentaries do not seek moral judgments in the Spring and Autumn but instead interpret its records as produced by a historiographical tradition that was governed by rules related to hierarchy and ritual practice Van Auken s exploration of the Zu Tradition and other early commentaries sheds light on the transformation of the Spring and Autumn from a simple non narrative historical record into a Confucian classic Transformation of Society During the Spring and Autumn Period and the Warring States Period Da Xue, The book is the volume of Transformation of Society During the Spring and Autumn Period and the Warring States Period among a series of books of Chinese Dynastic History The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China s last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People s Republic of

China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China *Spring and Autumn Annals* Confucius,2023-11-22 The Spring and Autumn Annals is a seminal historical text attributed to Confucius encapsulating key events in the State of Lu from 722 to 481 BCE This chronicle written in a terse and cryptic style employs an annalistic format that emphasizes political and moral lessons through the lens of Confucian thought The work serves not only as a record of historical events but also as a vehicle for ethical reflection intertwining the dictions of history and philosophy and laying the groundwork for future interpretations and commentaries Its significance extends beyond mere documentation it challenges readers to engage critically with concepts of morality governance and virtue in the context of Confucian ideals Confucius a philosopher and educator in ancient China sought to address the sociopolitical turmoil of his time through the promotion of moral integrity and proper governance His life experiences marked by witnessing the decline of the Zhou dynasty s authority imbued him with a profound understanding of the pitfalls in leadership and societal structure These observations significantly influenced his approach in crafting the Spring and Autumn Annals blending historical precision with philosophical inquiry to highlight the importance of ethical leadership For scholars historians and anyone interested in the foundations of Eastern philosophy the Spring and Autumn Annals is essential reading It invites readers to not only explore China s rich historical tapestry but also to reflect on the enduring values of responsibility and virtue that remain relevant today This text is a cornerstone of Confucian thought and continues to offer profound insights into the nature of history and morality **Report on the Migration of Birds in the Spring and Autumn of 1884** Brown,1885
