Language Learning with Technology Lindsay Miller, Junjie Gavin Wu, 2021-08-31. This book is about language learning with technology offering readers theoretical insights as well as practical case studies with a focus on Asia and Asian students. Although technology is rapidly advancing and most if not all students are already using technology in their everyday lives, traditional teaching learning practices still exist throughout Asia. This book provides examples written by representative educators from a variety of countries, regions and contexts where technology has successfully been used to enhance language learning. In addition to some everyday examples of using technology, Wikipedia, PowerPoint, Google Docs and YouTube, the book also offers the readers an insight into the future possible uses of advanced technology: Augmented Reality, Virtual Reality, Artificial Intelligence and Eye Tracking. The book presents illustrations of how teachers can and perhaps should be open to integrating some form of technology into in class learning or using it to supplement out of class activities. **Recent**
