**Television and New Media** Jennifer Gillan, 2010-10-18 Television and New Media introduces students to the ways that new media technologies have transformed contemporary television production distribution and reception practices Drawing upon recent examples including *Lost* 24 and *Heroes* this book closely examines the ways that television programming has changed with the influx of new media transforming nearly every TV series into a franchise whose on air online and on mobile elements are created simultaneously and held together through transmedia storytelling This book is essential for understanding how creative and industrial forces have worked together in the new media age to transform the way we watch TV

Fifties Television William Boddy, 1993 Just a few years in the mid 1950s separated the golden age of television's live anthology drama from Newton Minow's famous vast wasteland pronouncement *Fifties Television* shows how the significant programming changes of the period cannot be attributed simply to shifting public tastes or the exhaustion of particular program genres but underscore fundamental changes in the way prime time entertainment programs were produced sponsored and scheduled These changes helped shape television as we know it today William Boddy provides a wide ranging and rigorous analysis of the fledgling American television industry during the period of its greatest economic growth programming changes and critical controversy He carefully traces the development of the medium from the experimental era of the 1920s and 1930s through the regulatory battles of the 1940s and the network programming wars of the 1950s

**How to Read a Film** James Monaco, 1981 Now thoroughly revised and updated the book discusses recent breakthroughs in media technology including such exciting advances as video discs and cassettes two way television satellites cable and much more

Mapping Hegemony Robert Goldman, Arvind Rajagopal, 1991 This volume brings critical theory to bear on a familiar feature of our daily lives the evening news on television in order to clarify what it means to talk about hegemony This book's approach makes accessible to a wider audience another way of seeing an otherwise taken for granted dimension of daily life and political culture By empirically and theoretically reading a text taken from the evening news students can inspect in a language familiar to them what issues of ideology and legitimation are about

Frazer, 1985 **Out of the Garden** Stephen Kline, 1993 Contemporary youngsters he shows are catapulted into a fantastic and chaotic time space continuum of action toys thanks to the merchandisers interest in animated television

**The Republic of Mass Culture** James L. Baughman, 1997 In his highly praised Republic of Mass Culture James L. Baughman offers a lively analysis of the impact that the advent of television has had on America's media industries He contends that because television had captured the largest share of the mass audience by the late 1950s rival media were forced to target smaller sub group markets with novel content that ranged from rock n roll for teenage radio listeners in the 1950s to the more sexually explicit films that began to appear in the 1960s For this updated edition Baughman includes in his discussion the effects of the new competitive realities of the 1990s on journalism filmmaking and broadcasting The dominance of marketplace values he argues has further fragmented the mass audience encouraged record breaking mergers between media companies and precipitated a steady and alarming decline in the quality of and public interest in journalism a trend that may ultimately threaten American democracy *American Mass Media* Robert Atwan, Barry Orton, William Vesterman, 1986
