Spontaneous Psi Depth Psychology Para:

The Gold Leaf Lady and Other Parapsychological Investigations Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization *The Gold Leaf Lady and Other Parapsychological Investigations* is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions *The Gold Leaf Lady and Other Parapsychological Investigations* will intrigue both adherents and detractors of its controversial subject matter alike **Advances in Parapsychological Research** ,1977

Parapsychology Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-08-14 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone s satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don t know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here *The Trickster and the Paranormal* George P. Hansen, 2001-08-20 Paranormal and supernatural events have been reported for millennia They have fostered history s most important cultural transformations e g via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world s greatest art and literature as well as in popular TV shows and movies Most adults in the U S believe in them Yet they have a marginal place in modern culture No university

departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for science **Parapsychology Abstracts International** ,1988 **Advances in Parapsychological Research: without special title** Stanley Krippner,1977 Mind-Matter Interaction Pamela Rae Heath, M.D.,2014-01-10 The power of the mind to influence the physical world has long been debated debunked studied for military applications and used in science fiction This historical and theoretical study of mind matter interaction or MMI explores the phenomena of levitation stigmata inedia paranormal activity bilocation fire immunity luminosity and the teleportation of matter The results of more than a century of formal experimental research are discussed as are resultant training techniques theories and controlled experiments used to test or bolster psychokinetic abilities *Spontaneous Psi, Depth Psychology, and Parapsychology* Betty Shapin,1992 Broken Images Broken Selves Stanley Krippner,Susan Powers,2013-06-20 Practical and provocative this book serves as a guide for those who want a deeper look into the human psyche and a more encompassing vision of the less predictable aspects of the mind **Parapsychology Review** ,1990 *Parapsychology, Philosophy, and Religious Concepts* Betty Shapin,Lisette Coly,1987 **Advances in Parapsychological Research** Stanley Krippner,1977 Five articles and support material further the series documenting the scientific investigation into the ability of human consciousness to transcend space and time with extra sensory perception and to produce remote effects such as psychokinesis and psychic healing They consider spontaneous psi phenomena methods of enhancing PK task performance psychic healing and complementary medicine testing children for paranormal abilities and the sociological and social psychology of conjurors and their relations with psychical research Also included are a tribute to Italian researcher Emilio Servadio 1904 95 and a selection bibliography of books published 1991 94 Annotation copyrighted by Book News Inc Portland OR *Journal of the Society for Psychical Research* Society for Psychical Research (Great Britain),2004 Encyclopedia of Occultism & Parapsychology: M-Z J.
