## **Squandered Victory The American Occupation And Bungled Effort To Bring Democracy To Iraq:**

**Squandered Victory** Larry Diamond,2007-04-01 America's leading expert on democracy delivers the first insider's account of the US occupation of Iraq a sobering and critical assessment of America's effort to implant democracy In the fall of 2003 Stanford professor Larry Diamond received a call from Condoleezza Rice asking if he would spend several months in Baghdad as an adviser to the American occupation authorities Diamond had not been a supporter of the war in Iraq but he felt that the task of building a viable democracy was a worthy goal now that Saddam Hussein's regime had been overthrown He also thought he could do some good by putting his academic expertise to work in the real world So in January 2004 he went to Iraq and the next three months proved to be more of an education than he bargained for Diamond found himself part of one of the most audacious undertakings of our time In Squandered Victory he shows how the American effort to establish democracy in Iraq was hampered not only by insurgents and terrorists but also by a long chain of miscalculations missed opportunities and acts of ideological blindness that helped assure that the transition to independence would be neither peaceful nor entirely democratic He brings us inside the Green Zone into a world where ideals were often trumped by power politics and where US officials routinely issued edicts that later had to be squared at great cost with Iraqi realities His provocative and vivid account makes clear that Iraq and by extension the United States will spend many years climbing its way out of the hole that was dug during the fourteen months of the American occupation

### **Post-Saddam Iraq**

### **Hope Is**

**Not a Plan** Thomas Mowle,2007-03-30 Hope Is Not a Plan takes the reader inside the war in Iraq courtesy of participant observers brought there to diagnose the insurgency and develop a get well plan Focusing on the critical months of late 2004 and early 2005 it looks at a slice of the war not previously examined This is not the Beltway story nor the grunt and jarhead story Rather the book looks at the process of taking political and military goals and turning them into action In telling that story Hope Is Not a Plan helps explain how Iraq got to where it is today The book compares the reality of what happened in the Green Zone during this period with what history experience and doctrine suggest should have happened Finally it reflects on what can be learned from the experience From the outset the war in Iraq was directed from Washington and executed by troops on the ground Between Washington and the battlefields was the Green Zone a four square mile enclave that hosted the American Embassy annex the Iraqi Reconstruction Management Office the planning policy strategy and communications sections of Headquarters Multi national Force Iraq and the Independent Electoral Commission of Iraq

### ***Advancing Democracy Abroad***

Michael McFaul,2009-12-16 After eight years of President Bush's trumpeting the virtues of promoting freedom and democracy abroad but achieving limited results many Americans have grown suspicious of democratic

development as a goal of American foreign policy As a new administration reviews the role democratization will play in its foreign policy distinguished Stanford University political scientist and Hoover Institution senior fellow Michael McFaul calls for a reaffirmation of democracy s advance as a goal of U S foreign policy and sets out a radically new course to achieve it In Advancing Democracy Abroad McFaul explains how democracy provides a more accountable system of government greater economic prosperity and better security compared with other systems of government He then shows how Americans have benefited from the advance of democracy abroad in the past and speculates about security economic and moral benefits for the United States from potential democratic gains around the world The final chapters explore past examples of successful democracy promotion strategies and outline proposals for effectively supporting democratic development in the future

Published in cooperation with the Hoover Institution    **The Business of War** James A. Tyner,2006 The Business of War considers the myriad ways in which transnational labour migration intersects with the occupation of Iraq and examines the role of the USA in the Middle East The book places the war on terror within the practices of neoliberalism but also links this with migration issues and argues that it is all part of a larger business of conflict    *Rumsfeld's Wars* Dale Roy

Herspring,2008 A highly critical but nonpartisan assessment of the controversial former Defense Secretary as told by one of the leading experts on civil military relations Focuses on Rumsfeld s notoriously domineering leadership style flawed vision for transforming the military and failures in the Iraq War    *Good Fight* Peter Beinart,2013-06-18 More than six years after the September 11 attacks the close friendship forged between George W Bush and John Howard remains But in their nations more broadly the common purpose has withered drained by the sense that both men have failed the moral and intellectual challenges of that day In this powerful and provocative book Peter Beinart offers a new liberal vision based on principles liberals too often forget that America s greatness cannot simply be asserted it must be proved That American leadership is not American empire And that liberalism cannot merely define itself against the right but must fervently oppose the totalitarianism that stalks the Islamic world today Peter Beinart s The Good Fight is a passionate rejoinder to the conservatives who have ruled Washington since 9 11 Beinart argues that America can again embrace the creed that brought it greatness in the past but only if liberals remember that democracy begins at home Above all it is a call for liberals to revive the spirit that once swept America and inspired the world    **Oil and Democracy in Iraq** Robert Springborg,2007 An

progressive imperatives for national security First we must marshal all of America's manifold strengths starting with our military power but going well beyond it for the struggle ahead Second we must rebuild America's alliances because democratic solidarity is one of our greatest strategic assets Third we must champion liberal democracy in deed not just in rhetoric because a freer world is a safer world Fourth we must renew U.S. leadership in the international economy and rise to the challenge of global competition Fifth we must summon from the American people a new spirit of national unity and service In sum the progressive strategy detailed in this book takes advantage of all of our country's strengths not just the big stick of military power It seeks to unite not polarize and divide our people It links the defense of liberty abroad with a new determination to press progressive reforms at home It calls on all Americans not just our men and women in uniform to share the burden of prevailing in what is likely to be a long arduous and costly struggle Published in cooperation with the
