Zusammenfassung eine umfassende Bibliographie und ein persönliches Interview mit Paul Auster Englischer Klappentext For most readers and critics Paul Auster's oeuvre begins with The New York Trilogy yet his major success as a novelist was preceded by a decade of almost obsessive devotion to poetry The Implosion of Negativity is the first book length study of Paul Auster's early work From his dense intensely lyric sequences of the early 1970s to the more discursive style of Auster's final book of poems Facing the Music 1980 and on to his experimental prose of the early eighties The Implosion of Negativity traces a fascinating journey through the author's formative years Andreas Hau's dissertation begins with a detailed analysis of Auster's early long poem *Unearth* examines overlooked influences such as Paul Celan and Martin Buber and continues with Auster's exploration of his Jewish heritage in *Wall Writing* his rediscovery of the American objectivists in *Disappearances* and his encounters with the visual arts in *Fragments from Cold* Subsequent chapters investigate Auster's eventual break with the lyric form and the transitional phase of genreless prose in *White Spaces* and *The Invention of Solitude* The Implosion of Negativity closes with a re-examination of The New York Trilogy in the light of Auster's obscure early oeuvre and exemplifies how the undead poet has become the negative force that haunts and fuels Paul Auster's novels to date I remain very attached to the poetry I wrote says Auster I still stand by it In the final analysis it could even be the best
