Teach Witnessing:

Witnessing Study Course Series ISAIAH MACWEALTH, 2025-02-11 Witnessing is more than what we do what we say and how we live There is a whole lot more to it that we need to insert and put into practice from the first contact with the unsaved soul to the care and establishment of the soul for the kingdom of God Using the story of the good samaritan as told by Jesus Dr Isaiah Macwealth brings to light the steps taken by the good samaritan in restoring the man attacked by thieves to reveal our consequent responsibilities as witnesses *Tradition Witnessing the Modern Age* Enes Ergene, 2008-11 Addressing the sociological cultural and religious aspects of the Glen movement this insider s look also explores the failure experienced by many other Islamic movements that attempted to combine traditional values with the modern world The influence Fethullah Glen has had on secularist Turkey is also examined *The Pedagogical Possibilities of Witnessing and Testimonies* Marie Hållander, 2020-10-27 This book explores the pedagogical possibilities of testimony and witnessing Drawing on the work of Giorgio Agamben this book highlights the ultimate impossibility of witnessing and testimony testimonies do not stand outside language history politics or capitalist systems Through analysis of different aspects of representation subjectivity and emotions this book illustrates how testimonies can be used as a way to control student emotions perceptions and understandings Testimonies used within teaching can work as a way to reproduce stereotypes of suffering and can thus consolidate and reinforce existing power structures and identities By exploring these difficulties the author argues for the value of teaching historical testimonies of suffering that recognize both the impossibilities and possibilities of witnessing and testimony Marie H llander has provided an indispensable guide to re thinking the pedagogical possibilities of witnessing and testimonies essential reading for anyone interested in how to approach these topics both critically and pedagogically Through a lucid theoretical synthesis this book re inscribes a dynamic pedagogical dimension into the topics of witnessing and testimony which have been dominated by historians psychologists and literary critics Thinking through the theoretical challenges of witnessing and testimony yet using powerful examples from teaching H llander develops a forceful analysis that shows the profound implications of these topics for pedagogical practice Michalinos Zembylas Open University of Cyprus Cyprus Timely and topical this fascinating book complicates approaches to witnessing suffering and testimony without diminishing the pedagogical historical and political significance of sharing or harkening to one s experience It is a powerful original and valuable contribution in its field not only because it weaves its themes in a diligent reflective and critical manner but also because it has its own unique perspective and sensibilities as these emerge from erudite combination of narrative pedagogy and philosophy Marianna Papastephanou University of Cyprus Cyprus
