Lifestyle Journalism Folker Hanusch,2014-03-05 Lifestyle journalism has experienced enormous growth in the media over the past two decades but scholars in the fields of journalism and communication studies have so far paid relatively little attention to a field that is still sometimes seen as not real journalism There is now an urgent need for in depth exploration and contextualisation of this field with its increasing relevance for 21st century consumer cultures For the first time this book presents a wide range of studies which have engaged with the field of lifestyle journalism in order to outline the various political economic social and cultural tensions within it Taking a comparative view the collection includes studies covering four continents including countries such as Australia China Norway Denmark Singapore the UK and the USA While keeping the broader lifestyle field in mind the chapters focus on a variety of sub fields such as travel music food health fashion and personal technology journalism This volume provides a fascinating account of the different facets of lifestyle journalism and charts the way forward for a more sustained analysis of the field This book was originally published as a special issue of Journalism Practice **Born on a Rotten Day** Hazel Dixon-Cooper,2009-12-01 In this wickedly funny guide professional astrologer Hazel Dixon Cooper casts off sugar coated astrology in favor of exploring the maladjusted side of the universe If you want the inside scoop the real deal the lowdown on each sun sign then look no further It's time to forget those traditional astrology books where Sagittarians are gregarious Capricorns are ambitious and Pisceans are dreamers Instead enter a world where Archers are loud mouthed bores Goats are pompous social climbers and Fish are chronically helpless Dixon Cooper debunks the myths reveals the flaws and examines the dubious virtues of each sun sign Discover how to use your own inner brat to outwit bullies outmaneuver manipulators and win those endless games that lovers play Learn how to deal with those dysfunctional people you encounter every day including how to contain a Ram's oversized ego calm a raging Bull keep a fickle Twin faithful Irreverent biting and laugh out loud funny Born on a Rotten Day exaggerates the bad exorcises the good and puts a new spin on the age old question what's your sign **Animated Parables** Terry Lindvall,2022-12-13 Generally neglected for their rhetorical power animated cartoons provide a treasure chest of provocative and comic gems that teach about the seven deadly sins After a brief history of parables and fables icons and visual communication this book explores each of the seven deadly sins as represented in short animated films from Disney Pixar the Warner Brothers and international animators Terry Lindvall argues that attending to the tropes of the cartoons leads to exemplary and revelatory discoveries to seeing more of what pride envy wrath sloth avarice gluttony and lust mean across cultures and historical eras

Science under siege Peter Banks, Daniel Lunney, Chris Dickman, 2012-11-01 On Saturday 29 November 2008 the Royal Zoological Society of NSW held a forum with the theme of Science under siege As the RZS is a zoological society zoology under threat became the secondary theme and the basis for selecting speakers This book records that forum with the papers developed for this book as the written word from the spoken presentations Papers that were presented as posters are included as are the edited plenary sessions which featured questions from the floor with answers and comments encouraged from anyone in the forum We were delighted that Mark Horstman from ABC Catalyst was willing to replace his peripatetic colleague Paul Willis who was nonetheless very happy to write the foreword There is a place for such skilled science communicators we need more of them and scientists at the lab bench or in the field or exploring computer models or those that have now taken a job in the policy world need to stay in touch with them Some might say that the title Science under siege seems a bit extreme but we invite you to examine the evidence as presented in this book What follows is an edited version of the introductory material that advertised the forum The title looks dramatic but if you ask yourself is anything killing the science in your area of interest you might be surprised that you come up with a point or two Then ask a wider set of questions such as are there any pressures that preclude people from doing good zoology do either political budgetary constraints impact on your field is science in the media a subject that

influences the outcome of your work are there economic impediments to careers in zoology is the education mix in Australia right for this new century are the best researchers becoming full time administrators or the converse the poor researchers becoming the administrators can you place the Australian situation in an international context are there reduced opportunities for human interactions with the natural world is the virtual world killing reality and what are your predictions of the future To deal with such issues the Royal Zoological Society of NSW has structured the day to emphasize a range of themes beginning with identifying the issues including those that are persistent and those that are emerging and encompassing palpable hits to science Direct and indirect hits to science include such matters as the withdrawal of funding subversion of science death by 1000 cuts redirection of funding to fashion issues and using the name of science to justify things that are really not justifiable The name of science is being dragged down We need to confront the ever present problem of ignoring the scientifically accurate for the politically correct This raises such questions as to whether basic skills in biology are not being acquired because of public concern based on extreme animal rights propaganda Good science is not optional but what can be done if you are under siege The answers include understanding the philosophy of science the legal perspective and asking what scientists are or should be doing Audience participation will be a central part of this forum The plenary sessions will address questions raised by the speakers and the posters and debate issues and consider options for future directions It is widely known that it is hard to pull a major paper together on this theme but so many scientists know of at least one matter that they would like to draw to public attention So short contributions are included Listen to the speakers present some overarching themes or compelling case studies contribute to the debate on the day then examine your stance on a variety of these subjects to see whether the day changes your view of this often cryptic aspect of zoology As editors we wish to acknowledge the skills of the referees all papers were refereed by two peers and the patience of the authors for what has been a long gap between the date of the forum and this publication By the end of 2008 the Royal Zoological Society of NSW along with everyone else was caught by the GFC Global Financial Crisis and we simply had to extend the length of the queue for publication We also reassessed our mode of publication The Council of the Society voted to publish this production as an ebook as well as a short print run for formal library deposit and other essential matters The ebook is open access to enhance the reach of the papers and the ideas At the same time the Royal Zoological Society of NSW signed a contract for a more international mode of access of the publications of the Society and papers are now available via Metapress <http://rzsnsw.metapress.com> Science remains under siege in our view and now we have been alerted to the range of issues it becomes easier to spot the small irritating closing of options that collectively amount to a denial of science and its relegation to an optional way of looking at the world During production of this book this matter became obvious on a number of fronts which led us to invite the paper by Rosie Cooney and colleagues to defend their science of kangaroo conservation and commercial harvesting from an attack on the science We also saw that this issue of science under siege needs more airing and the Royal

Zoological Society of NSW is planning its forum for the end of 2012 to take up another strand of this theme by capitalizing on the lifelong insights of scientists under the rubric of grumpy scientists an ecological conscience of a nation This idea in fact derives directly from the suggestions in the plenary sessions by Nick Holmes and Charley Krebs We are also concerned for young scientists with science under siege manifesting often in a failure to create permanent careers for science graduates that advance science itself and zoology in particular from flourishing and identifying problems and finding solutions If we want to conserve the native fauna of Australia then Australian zoologists will have to be key team members We contend that to put science under siege and zoology under threat we not only further imperil our native wildlife but also the careers of the small band of specialists that can see the issues find the problems implement solutions and evaluate the outcomes In short science under siege is not a light matter and no one in this forum thought so Read on form an opinion and speak up and publish your thoughts your examples and your solutions **Fielding's Australia** Zeke Wigglesworth,Joan Wigglesworth,1997 Fielding s compact insightful and authoritative guide takes independent travelers to the most exciting spots in the land Down Under Get to know the locals discover aboriginal art treasures go camping and hiking in the Outback diving the Great Barrier Reef and much more **International Books in Print** ,1986 **Australian Children's Books: 1973-1988** Marcie Muir,Kerry White,1992 Volume two of a reference work listing all children s books by Australians Thsi volume covers the period from 1973 to 1988 Entries provide physical descriptions dates publishers illustrations awards received and in some cases remarks on the content Entries are arrnaged by author Title and illustrator indexes are included **Mathematics and Computer Education** ,1994 **Pure-bred Dogs, American Kennel Gazette** ,1979-10 **The Eclectic Magazine of Foreign Literature, Science, and Art** ,1881 **Eclectic Magazine** John Holmes Agnew,Walter Hilliard Bidwell,Henry T.
