what you want To internalize First we study rulebooks perhaps take some classes and conclude just about everything we re is doing is wrong So many rules to memorize We might dread sitting down to write with all those constraints But really it s not about memorizing rules at all It s about internalizing the rules following them or not if you prefer without being consciously aware of what they are They re there but in the background Your story is what matters You re supposed to be having fun not working At least not during the creation phase Study rules learn rules memorize rules there s one more step Internalize rules Well actually there s another step after that Break rules But do it deliberately not out of ignorance In the process of all this work you ll find your own unique writing voice Without that there s no point in writing at all
