50 Challenging Problems In Probability With Solutions:

Fifty Challenging Problems in Probability with Solutions Frederick Mosteller, 2012-04-26 Remarkable puzzlers graded in difficulty illustrate elementary and advanced aspects of probability These problems were selected for originality general interest or because they demonstrate valuable techniques Also includes detailed solutions **40 Puzzles and Problems in Probability and Mathematical Statistics** Wolf Schwarz, 2007-11-25 As a student I discovered in our library a thin booklet by Frederick Mosteller entitled 50 Challenging Problems in Probability It referred to as elementary regular textbook by William Feller An Introduction to Probability Theory and its Applications So I took this one along too and started on the rest of Mosteller's problems on the train riding home From that evening I caught on to probability These two books were not primarily about abstract formalisms but rather about basic modeling ideas and about ways often extremely elegant ones to apply those notions to a surprising variety of empirical phenomena Essentially these books taught the reader the skill to think probabilistically and to apply simple probability models to real world problems The present book is in this tradition it is based on the view that those cognitive skills are best acquired by solving challenging nonstandard probability problems My own experience both in learning and in teaching is that challenging problems often help to develop and to sharpen our probabilistic intuition much better than plain style deductions from abstract concepts *50 Challenging Problems in probability with solutions*, 1987 *Fifty Challenging Problems in Probability, with Solutions* Leonard Casper, 1965 A Statistical Model Stephen E. Fienberg, David C. Hoaglin, William H. Kruskal, Judith M. Tanur, 2012-12-06 A large number of Mosteller's friends colleagues collaborators and former students have contributed to the preparation of this volume in honor of his 70th birthday It provides a critical assessment of Mosteller's professional and research contributions to the field of statistics and its applications Probability Theory Subject Indexes from Mathematical Reviews American Mathematical Society, 1987 Problem Solving in School Mathematics, 1980 *Accessions List* University of London.
