

FUEL MEASURING STICK

There are six measuring sticks in main tank 1 and main tank 2. Each fuel measuring stick is on a fuel tank access door.

There are four fuel tank measuring sticks in the centre tank.

The inner sticks have graduation marks that show fuel height in linear units.

There are two inclinometers, one for airplane pitch, one for airplane roll, in the main landing gear wheel well.

You use fuel height the linear unit measurement and airplane pitch and roll to measure fuel quantity. Chapter 12 of the Aircraft Maintenance Manual has conversion tables that change linear units, fuel height, and airplane pitch and roll into fuel quantity.

This procedure is rather involved and will be completed by an engineer only when the fuel quantity gauging system is inoperative.
