Novel Road Map To Success Answers The Outsiders:

The Tao of Alibaba Brian A Wong, 2022-11-01 From a long time Alibaba executive and former special assistant to Jack Ma this is the first book to articulate how Alibaba's unique culture and tai chi management principles are providing a business and economic development model for the rest of the world. If you took the economic might of Amazon and added the penetration of Facebook, the ubiquity of Google and the cultural significance of YouTube, you might have something starting to resemble Alibaba. Commonly mischaracterized as a kind of Chinese eBay for businesses, Alibaba and its interlinked network of products and services have exploded into global markets, disrupting conventional businesses and creating previously unimaginable opportunities for millions of small businesses worldwide. This book reveals the Tao of Alibaba, the company's secret sauce, a consciously cultivated ethos and spirit that has enabled Alibaba to weather tough times and setbacks and persist toward a common mission. It is a blueprint of the company's management philosophy crystalized into the most important elements that have driven its success, and it provides a road map for how to incorporate these principles into any organization's operations. Wong distills his nearly two decades of experience inside the company to show readers how to align their organization's capabilities with performance-maximizing tools in order to achieve success. But most importantly, the Tao of Alibaba teaches the pursuit of greater purpose and meaning, steering entrepreneurs to view their ventures as a vehicle for having profound and lasting impacts on their communities. Ultimately, the lessons shared in *The Tao of Alibaba* will serve as timeless tools for any entrepreneur seeking to configure their organization toward purpose and impact.

Raising Entrepreneurial Capital John B. Vinturella, Suzanne M. Erickson, 2013-01-16 *Raising Entrepreneurial Capital* guides the reader through the stages of successfully financing a business. The book proceeds from a basic level of business knowledge, assuming that the reader understands simple financial statements, has selected a specific business, and knows how to write a business plan. It provides a broad summary of the subjects that people typically research, such as: How should your company position itself to attract private equity investment? What steps can you take to improve your company's marketability? Much has changed since the book was first published, and this second edition places effects of the global recession in the context of entrepreneurship, including the debt vs. equity decision, the options available to smaller businesses, and the considerations that lead to rapid growth, including venture capital, IPOs, angels, and incubators. Unlike other books of the genre, *Raising Entrepreneurial Capital* includes several chapters on worldwide variations in forms and availability of pre-seed capital, incubators, and the business plans they create, with case studies from Europe, Latin America, and the Pacific Rim. Combines solid theory with a practitioner's experience and insights. Case studies illustrate theory throughout the book. Updated to reflect the realities of the global economic recession.

Leading Without Command Joe Mutizwa, 2015-03-10 *Leading Without Command* offers practicing and aspiring leaders in business and other disciplines a new way to lead in a world defined by volatility, uncertainty, complexity, and ambiguity. The compelling argument in this book is that leading

through command control and deployment of raw positional power can no longer guarantee superior organizational performance on a sustainable basis A new leadership model based on a humane perspective anchored on people centred principles and supported by a set of appropriate skills and behaviours is put forward This book is essential reading for anyone in a position of authority or influence over people and for anyone who needs to come to terms with the demands of a globally integrated and hypercompetitive world driven by digital technology knowledge and the redistribution of power from leaders to followers in organizations nations and societies
