Socrates Lucretius Camus Two Philosophical Traditions On Death:

Socrates, Lucretius, Camus Fred Wilson, 2001 The present essay attempts to do something that has not been done in the recent literature concerning death namely to link reasons for attitudes towards death to reasons for different metaphysical positions on human being and the place of human being in the universe Most recent discussions of death either place the topic directly in the context of nothing more than ethical considerations continued on the next page **Essays on Heidegger and European Philosophy** William Vaughan, 2002 This work answers questions such as What elements of the Pauline view of time did the supposed atheist Heidegger bring from his study of the epistles to his work Being and Time And why did Heidegger remain so silent about the Holocaust and his dalliance with National Socialism **The Philosophy of Sir William Mitchell (1861-1962)** W. Martin Davies, 2003 The work of Scottish born Sir William Mitchell is examined the Hughes Professor of Philosophy and Vice Chancellor of the University of Adelaide and the major philosopher who lived in South Australia *A Translation of Arthur Ahlvers' Zahl und Klang Bei Platon/Number and Sound in Plato* Arthur Ahlvers, 2002 Provides considerable help in moving to a more complex and better informed understanding of the links between geometry music and Plato's concern for the beautiful and the good especially in those passages where the author pauses in between passages of close argument and sums up the argument so far or discusses the various other attempts to deal with notoriously obscure parts of Plato's text **Ultimate Reality and Meaning**, 2003 *The Potential Role of Art in Kierkegaard's Description of the Individual* Scott Koterbay, 2004 Kierkegaard scholarship has generally focused on either existential or religious issues interpreting Kierkegaard's understanding of the individual's relationship to itself and to the Christian God As a result of his description of the stages of development of the individual in the process of that relationship such scholarship has consistently ignored the inherent potential to articulate an aesthetic system which would describe art as a means of facilitating the development in a positive direction This book offers the first thorough description of a Kierkegaardian aesthetic which does not demote art to a merely sensuous and negative influence it is an explication of the specific feature of Kierkegaard's description of the individual such as communication repetition and the self within the context of a positive notion of art as well as an analysis of art itself the artist and the fundamental value of art as a profitable means of influencing the individuals While this book is unique for placing art into a central role within Kierkegaard scholarship it also remains critical of such a role maintaining the importance of recognizing the limitations which art has The final **Science and Ethics** Paul Kurtz, David Koepsell, 2007-06-05 This volume presents a unique collection of authors who generally maintain that science can help us make wise choices and that an increase in scientific knowledge can help modify our ethical values and bring new ethical principles into social awareness *Schopenhauer* G. Steven Neeley, 2003 Dr Neeley seriously regards Schopenhauer's remarks about the unity harmony and consistency of his philosophy He may even be said to take Schopenhauer's consistency claims more seriously than any other major interpreter of his thought Dr Neeley who is

also a lawyer as well as a professor of philosophy treats Schopenhauer as if he were a client charged with a capital offense for a philosopher i e producing an inconsistent philosophy The charge of inconsistency has been a demon haunting Arthur Schopenhauer s philosophy from the earliest critical reviews of his masterpiece *The World As Will and Representation* through the present If one were to derive a conclusion regarding Schopenhauer s philosophy based on the dominant themes exemplified in the secondary literature one may well infer that Schopenhauer s philosophy was the product of a brilliant but radically flawed thinker It would seem that Schopenhauer was capable of provocative ideas flashes of isolated insights which inspired some philosophers and many creative artists but that his thought was saturated with irreconcilable paradoxes and contradictions although this all was expressed in a clear and at times
