Spirit As Life Force:

Two Worlds, One Consciousness: Unifying Lucid Dreaming and Conscious Living Steven Ernenwein, 2011

Transcendence Frederick Guttmann, Some people can imagine a monkey someday becoming a man in nature and imagine the man who may become in nature an angel and even more than an angel Transcendence means going beyond any limits or restrictions exceed a certain level A theme of the most musing is the concept of man as a being able to overcome their own barriers and become apparent more than matter something more than death more than chemistry Is that actually possible All the walls that appear at the beginning of these approaches run into the paradigm of the death of the body the biological vehicle A lack of strong evidence or fully convincing what happens then to this point when it comes to our mind our consciousness our soul or our spirit the life of most human become to a frustrated career limited by enjoy a moment of pleasure that can give the senses even if an analytical mind would know judge that there is an invisible referee of causes and effects that go beyond the visual phenomena and that our subconscious warns us cautious about the possibility of a trial in the Hereafter What if we discover that everything we think we know about the universe is nothing but an illusion a holographic projection quantum in various dimensions created by a Mind of which we are an intrinsic part incomprehensibly with the naked eye Death state that we perceive as traumatic and totally end would be part of this illusory dream a misconception of our own mind While this would be riddles within riddles that with effort and will be resolved so that man knows his true identity and pre existence What if we knew that we are not this body we look in the mirror but far from these senses of physical there is hiding an immortal body that is an individualized part of one great consciousness experiencing a psychic Matrix with phenomena that seem real So we could understand differently the cosmos to assume that we are imprisoned in a lower avatar subject to laws of a multiverse full of mazes We were part of a large number of souls who come from another universe and experiencing an unreality artificial creations based on ego of the Collective Mind of which we are part Within these almost limitless experiences we are subject to various invisible laws that neither animals nor men nor angels nor gods can avoid and which require a balance between Light and Chaos in all universes galaxies dimensions star systems densities of vibration planets and planes of reality Life and death how it feels in them being such a seemingly real dream playing part of a predetermined script where cause and effect and Destiny on these throw the soul to different scenarios whose antagonism is precisely our criterion of Life and Death each as area and or circumstance sphere of competence and the time lapse is responsible within Time and Space Maya is just a cosmos behind a veil to be pierced We must not fall into the deception of assuming that we are only a chemical result of random and haphazard processes have no role or existential purpose except survival no longer exist Big mistake fatal fallacies of ego Mind as creator of all Light as principle of the vibration of the cosmic energy of the Great Logos who becomes aware of itself duality as reasoning of separation a vehicle of vital force within the range of power light multiple life experiences a death that is not death death

that is supposedly death transcendence lighting awakening consciousness sleep created by ourselves and unification with the One that we've never left Welcome to the Resurrection way before to die Six Stages on the Spiritual Path Ruth Whitney, 2021-05-21 In Six Stages on the Spiritual Path we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe *Foundations of Osteopathic Medicine* Kurt P.
