Language, Memory, and Identity in the Middle East Franck Salameh, 2010-04-12 Since the West s very early flirtations with the modern Near East and especially in the past 100 years of East West relations there has been considerable difficulty in understanding and defining the Middle East the Arab world pan Arabism Arab nationalism and Middle Eastern identities in general The Western impulse of conflating national identity with language state and ethnicity often subsuming Arabic language into Arab ethnicity has contributed to this misunderstanding and misreading of the region For while the Middle East can be accurately referred to by way of the generic Arab world label the appellation itself is a misleading oversimplification that conceals an inherent diversity and multiplicity of Middle Eastern cultures ethnicities languages and nationalities And while there is certainly a dominant Arab ethnos there are also significant numbers of Middle Eastern peoples and nationalities with historical memories and ethno cultural bonds that challenge the dominant Arabist paradigm Language Memory and Identity in the Middle East proposes a new reading of modern Middle Eastern history and suggests alternate solutions to the region s problems The book is an attempt to rehabilitate and bring back to the fore of Middle East Studies the issue of language as a key factor in shaping and misshaping the region with the hope of rediscovering a broader more honest and less ideologically tainted discussion on the Middle East Language Memory and Identity in the Middle East has a special focus on Lebanon a Christian homeland because Lebanon has traditionally acted as the region s template for change and a barometer gauging its problems and charting its progress **Spoken Lebanese** Maksoud Nayef
