Deaf Education and Challenges for Bilingual/Multilingual Students Musyoka, Millicent Malinda, 2022-01-07 Biliteracy or the development of reading writing speaking listening and thinking competencies in more than one language is a complex and dynamic process. The process is even more challenging when the languages used in the literacy process differ in modality. Biliteracy development among deaf students involves the use of visual languages i.e. sign languages and auditory languages spoken languages. Deaf students' sign language proficiency is strongly related to their literacy abilities. The distinction between bilingualism and multilingualism is critical to our understanding of the underserved linguistic deficit and the underachievement of deaf and hard of hearing D HH immigrant students thus bringing the multilingual and immigrant aspect into the research on deaf education. Multilingual and immigrant students may face unique challenges in the course of their education. Hence in the education of D HH students the intersection of issues such as biculturalism, multiculturalism, bilingualism, multilingualism and immigration can create a dilemma for teachers and other stakeholders working with them. *Deaf Education and Challenges for Bilingual Multilingual Students* is an essential reference book that provides knowledge, skills and dispositions for teaching multicultural, multilingual and immigrant deaf and hard of hearing students globally and identifies the challenges facing the inclusion needs of this population. This book fills a current gap in educational resources for teaching immigrant multilingual and multicultural deaf students in learning institutions all over the world. Covering topics such as universal design for learning, inclusion, literacy and language acquisition, this text is crucial for classroom teachers of deaf or hard of hearing students, faculty in deaf education programs, language instructors, students, pre-service teachers, researchers and academicians.

Vietnamese Tradition on Trial, 1920-1945 David G. Marr, 1984-02-03 Despite the historical importance of the Vietnam War we know very little about what the Vietnamese people thought and felt prior to the conflict. Americans have tended to treat Vietnam as an extension of their own hopes and fears, successes and failures rather than addressing the Vietnamese record. In this volume David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full scale revolutionary upheaval and protracted military conflict. He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people's war strategies employed subsequently against the French and the Americans. Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization. However *Vietnamese Tradition on Trial* goes beyond simply accounting for anyone's victory or defeat to an informed description of intellectual currents in general. Replying for his information on a previously ignored corpus of books, pamphlets, periodicals and leaflets, the author isolates eight issues of central concern to twentieth century Vietnamese. The new intelligentsia indubitably the product of a peculiar French colonial milieu yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future spearheaded every debate beginning in 1925. After 1945 Vietnamese intellectuals either placed themselves under ruthless

battlefield discipline or withdrew to private meditation David Marr suggests that the new problems facing Vietnamese today make both of these approaches anachronistic Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study Extravagant Camp Chris A. Eng,2025-02-04 Winner of the 2023 2024 CLAGS Fellowship Award Illuminates an irreverent queer cultural strategy for grappling with and remaking abject histories of violence Extravagant Camp takes as its point of critical departure the multiple valences of the word camp the camp as a geopolitical space and process of concentrating racialized populations and the campy as a mode of queer expressiveness Engaging its double meaning Chris A Eng explores how camp and encampment have contoured the figure of the Asian American The book follows campy performances that imaginatively restage the camps that have been central to dominant narratives of Asian American history Chinese railroad labor Japanese American incarceration Vietnam War refugee resettlement and counterinsurgency camps across US imperial entanglements in the Philippines Illuminating an eclectic ensemble of performances that grapple with Asian American history from classical works in the Asian American literary tradition to emerging works of theater and film Extravagant Camp uncovers Asian American camp as a prevalent yet underappreciated cultural strategy for contesting accounts of Asian American racialization that overly rely on terms of abjection Theorizing Asian American camp as both a performance strategy and reading practice Eng examines how artists drag up the maligned racial roles of the coolie the internee the refugee and the diva to make different sense of these histories Extravagant Camp shows how Asian American camp takes on queerness as a resource to enliven modes of joy beauty and pleasure within structures of constraint revealing the types of power camp retrieves for racialized communities in the face of abjection Geared toward the extravagant Asian American camp demands a recognition of queer abjection not as the basis for our undoing but rather the grounds for a more radical social remaking The Marine Corps Gazette ,1967 Daily Report ,1975-02

Sullivan, 2002 John Sullivan was one of the CIA s top polygraph examiners during the final four years of the war in Vietnam where he served longer and conducted more lie detector tests than any other examiner and worked with more agents than most of his colleagues His job was to evaluate the reliability of the agency s information sources an assignment that gave him a more intimate view of the war than was afforded most other participants **Honorable Warrior** Lewis Sorley, 1998 A man of extraordinary inner strength and patriotic devotion General Harold K Johnson was a soldier s officer loved by his men and admired by his peers for his leadership courage and moral convictions Lewis Sorley s biography provides a fitting testament to this remarkable man and his dramatic rise from obscurity to become LBJ s Army Chief of Staff during the Vietnam War A native of North Dakota Johnson survived more than three grueling years as a POW under the Japanese during World War II before serving brilliantly as a field commander in the Korean War for which he was awarded the Distinguished Service Cross for extraordinary heroism The latter experiences led to a series of high level positions that culminated in his appointment as Army chief in 1964 and a cover story in Time magazine What followed should have been the most rewarding period of Johnson s military career Instead it proved to be a nightmare as he quickly became mired in the politics and ordeal of a very misguided war Johnson fundamentally disagreed with the three men LBJ Secretary of Defense Robert McNamara and General William Westmoreland running our war in Vietnam He was sharply critical of LBJ s piecemeal policy of gradual escalation and his failure to mobilize the national will or call up the reserves He was equally despondent over Westmoreland s now infamous search and destroy tactics and reliance on body counts to measure success in Vietnam By contrast he advocated greater emphasis on cutting the North s supply lines helping the South Vietnamese provide for their own internal defenses and sustaining a truly legitimate government in the South Unheeded he nevertheless continued to work behind the scenes to

correct the nation's flawed approach to the war Sorley's study adds immeasurably to our understanding of the Vietnam War. It also provides an inspiring account of principled leadership at a time when the American military is seeking to recover the very kinds of moral values exemplified by Harold K. Johnson. As such it presents a profound morality tale for our own era.

Shadow on the White House David L. Anderson, 1993 Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945. Thirty years and five administrations later Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress. For Truman, Ford and every American leader in between the dilemma in Vietnam hung ominously over the presidency. In *Shadow on the White House* seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other. Focusing on the personalities, politics, priorities and actions of the presidents as they confronted Vietnam, the authors consider the expansion of presidential power in foreign policy formulation since World War II. In their analyses they chronicle the history of executive leadership as it related to Vietnam, assess presidential prerogatives and motives on war and peace issues, and clarify the interconnection between the modern presidency and the nation's frustrating tragic and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources the essays provide a framework on which to hang the kaleidoscopic events of the war. [Amazon.com](http://www.amazon.com)
