Charles B.M Balenga

Strong Conviction:

Bias, Belief, and Conviction in an Age of Fake Facts Anke Finger, Manuela Wagner, 2022-09-29 In this book authors engage in an interdisciplinary discourse of theory and practice on the concept of personal conviction addressing the variety of grey zones that mark the concept Bias Belief and Conviction in an Age of Fake Facts discusses where our convictions come from and whether we are aware of them why they compel us to certain actions and whether we can change our convictions when presented with opposing evidence which prove our personal convictions wrong Scholars from philosophy psychology comparative literature media studies applied linguistics intercultural communication and education shed light on the topic of personal conviction crossing disciplinary boundaries and asking questions not only of importance to scholars but also related to the role and possible impact of conviction in the public sphere education and in political and cultural discourse By taking a critical look at personal conviction as an element of inquiry within the humanities and social sciences this book will contribute substantially to the study of conviction as an aspect of the self we all carry within us and are called upon to examine It will be of particular interest to scholars in communication and journalism studies media studies philosophy and psychology The Open Access version of this book has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license <https://www.taylorfrancis.com/books/oa-edit/10.4324/9781003187936/bias-belief-conviction-age-fake-facts-anke-finger-manuela-wagner> 31 *Essential Principles of Leadership* Charles B.M

Balenga, 2018-07-02 In 31 *Essential Principles of Leadership* Charles Balenga has compiled an extensive list of attributes that will make a leader as effective as possible Each attribute is clearly explained with examples of how you can apply them to both your everyday life and your leadership Charles passion for leaders both young and old to be as effective as possible is inspiring and contagious he truly desires to see Africa and the world as a whole become a stronger place for all He uses his own considerable leadership experience through being a teacher a missionary executive director board president and a pastor to compile this list If you read understand and apply these 31 principles your leadership's effectiveness will rise to a greater height Although it is meant to be read as a daily devotion for each day for a month you can read two three or more principles a day depending on your reading speed and understanding The important thing is your comprehension and application of these principles Charles discusses leadership at a global level but includes some discussions on African leadership specifically The principles addressed in this book are applicable anywhere in the world and can be used in any community country or kingdom These principles are meant to help every leader wherever he or she may be to lead well It is important we each know that the greatness of any human being the ultimate success of any leader is in the we not in the me doing well Greatness is in my ability and your ability to rejoice in the others success The more I rejoice in the blessings of someone else the closer to coming my blessing is This means then that jealousy rivalry and negative competition with others are all chasing after the wind A leader blesses others He empowers others He throws a party to celebrate the success and

achievements of others He works with others to ensure community success Wanting to be the only successful person in the community is not being a leader **The Neglected Great Commission** Gabriel O. Akinbode,2023-09-05 Evangelism is heavily associated with announcing and proclaiming the gospel Both Western evangelical and Eastern Orthodox Christians have for the most part favored this view of evangelism In The Neglected Great Commission author Rev Dr Gabriel O Akinbode describes what evangelism means and further discusses the Great Commission that Jesus Christ gave to his disciples to go into the world and make disciples of all nations Strengthening the faith of Christians Akinbode offers a host of information on spiritual awakening He traces a brief history of the commission from the beginning and how it was passed from generation to generation identifies the essentials of evangelism delves into the scriptural pattern of evangelism and divides it into two parts namely mass evangelism and personal evangelism reveals the urgent need to reach the young people with the gospel that the harvest is plentiful the laborers are few and time is short describes how the Great Commission was neglected lifts up the benefits that can be achieved through obedience to the Great Commission and advocates for all believers to rise up and embrace the Great Commission The Neglected Great Commission communicates that the power of Jesus is available to save heal deliver and use you for God s glory There is a reward in serving the Lord *EBOOK:*

Macmillan's Magazine ,1875 **Hesperothen** Sir William Howard Russell,1882 *Thus Spake The Divine - Vol. 6* Padmaa Thyagarajan,2025-05-24 Sri Chandrashekharendra Saraswati Mahaswamigal fondly remembered as The Walking God toured the length and breadth of India and delivered series of lectures which highlighted the importance of Spiritual life routed in Vedic Tradition Many of his teachings appeals to a layman as well to a well versed scholar This book is the sixth in the series of seven volumes of his lectures in English **The Line through the Heart** J. Budziszewski,2014-04-29 The suicidal proclivity of our time writes the acclaimed philosopher J Budziszewski is to deny the obvious Our hearts are riddled with desires that oppose their deepest longings because we demand to have happiness on terms that make happiness impossible Why And what can we do about it Budziszewski addresses these vital questions in his brilliantly persuasive new book The Line Through the Heart The answers can be discovered in an exploration of natural law a venture that with Budziszewski as our expert guide takes us through politics religion ethics law philosophy and more Natural law the author states plainly but provocatively is a fact about human beings as surely as we have hands and feet we have the foundational principles of good and evil woven into the fabric of our minds From this elemental fact emerges a natural law theory that unfolds as part of a careful study of the human person Thus Budziszewski shows natural law forms a common ground for humanity But this common ground is slippery While natural law is truly an observable part of human nature human beings are hell bent quite literally on ignoring it The mere mention of the obligations imposed on man by his nature will send him into a rage In this sense The Line Through the Heart explores natural law as not simply a fact and a theory but also a sign of

contradiction While investigating the natural law and its implications Budziszewski boldly confronts and offers a newly integrated view of a wide range of contemporary issues including abortion evolution euthanasia capital punishment the courts and the ersatz state religion being built in the name of religious toleration Written in Budziszewski's usual crystalline style *The Line Through the Heart* makes clear that natural law is a matter of concern not merely to scholars it touches how each of us lives and how all of us live together His profoundly important examination of this subject helps us make sense of why habits that run against our nature have become second nature and why our world seems to be going mad **By and by** Edward Maitland,1875 *British Medical Journal* ,1886 Straight paths and crooked ways Mrs. Henry H B. Applying English Grammar. Caroline Coffin,Ann Hewings,Kieran O'Halloran,2014-06-03 This edited collection is about the application of English grammar and specialises in functional and corpus approaches approaches which are increasingly recognised as providing significant insights into English language in action It aims to stimulate interest and understanding of grammar as an applied tool not just for grammarians or language learners but for all those interested in how language is organized to shape our view of events in the world As the chapters in this book show functional and corpus approaches allow us to make observations that would not be amenable through more traditional forms of grammatical analysis They also illustrate how researchers can fruitfully bring together corpus and functional approaches to reveal how grammar and lexis create and transmit values identities and ideologies Research in Critical Discourse Analysis CDA has a long tradition of drawing on functional grammar but has only relatively recently begun to draw on corpus linguistics As such the book is unusual in presenting work on CDA which draws on corpus linguistics But not only that it is also unique in presenting work in CDA which brings together the methodologies of corpus linguistics and functional grammar demonstrating their combined potential for illuminating ideological perspectives particularly in media texts Given this focus and given the increasing value of empirical data the book will be of interest to those in a range of disciplines including the humanities and media and cultural studies Chapters comprise both newly commissioned and previously published works that illustrate the two methodological approaches to grammatical analysis and how they can be applied to deepen our understanding of language
