*The Confucian Shi, Official Service, and the Confucian Analects* Shirley Chan,2004 The Confucian Lunyu The Analects is perhaps the most important text in the Confucian canon Scholars have studied it and written about it for two millennia but little careful historical analysis has been done on the text especially from the perspective of a particular social group In this work the Lunyu is interpreted from the perspective of the social group known as shi officers or potential officers Confucius and his disciples all living between the late Chunqiu or Spring and Autumn period 770 481 B C and the Zhanguo or Warring States period 481 221 B C were members of the shi class and the Lunyu records anecdotes about them as well as their conversations and statements said to have originated with them The contribution of this study to the field of scholarship is two fold It clarifies the meaning of the term shi variously translated as scholar man of service man of excellence and officer that has been rendered ambiguous in Chinese classical literature because its terms of reference have changed over time text by providing a historical context from the perspective of the shi as a social group and allows us to explain some of the inconsistencies in the text This work also addresses some controversial claims presented in the work of Robert Eno and Bruce and Taeko Brooks Given the central canonical status of the Lunyu this new analysis of the text will be of interest to scholars concerned with the history of Chinese thought

Reconceiving Women's Equality in China Lijun Yuan, 2005-01-01 According to the author the subordination of Chinese women continued under different models of sex equality in China in twentieth century In Reconceiving Women's Equality in China Lijun Yuan discusses and assesses four models of women's equality first the traditional Confucian view of women which advocates that women's role is to follow and support men second the liberal feminist idea of formal equality for women introduced into China at the beginning of the twentieth century which is anti Confucian and advocates women's equal rights in education law and employment third Mao's view of women's equality in production calling for substantive equality between men and women finally the idea of equal opportunity in the economic transformation in the post Mao period the revival of Confucianism in this period and its convergence with the declining status of women According to Yuan each of these models has a variety of problems in dealing with women's equality However she sees one common thread running through all of them namely lack of emphasis on empowering women to develop their own visions of equality Ideologies imposed from the top down have rationalized the continuing subordination and exploitation of women either blatantly Confucianism or more subtly Maoism After exposing the common feature in their failure to reach the social ideal of women's equality the author proposes a more democratic conception of women's equality that will allow ideals to continue changing as material circumstances change in different stages of social development This book is a seminal work of research on the status of women in China during and after Mao's cultural revolution It is essential to studies of Chinese society politics and religion as well as to women's studies and philosophy *Rituals of Unity* Kai Lian, 2024-11-24 Rituals of Unity A Study of Li in Confucian Thought In a world where disorder threatens to dissolve the bonds that sustain existence Rituals of Unity emerges as a bridge between the past and the present This book unveils the foundations of Confucian thought presenting a
