**The Hive** Susan Stewart, 2008-08-01 At the crossroads of science mathematics and art lives Quiver a stunning new collection of poems that seeks to reconcile the empirical truths of science with the emotional truths of human experience Through an ambitious set of poetic series and sequences Somers Willett re invents the love poem conjuring a voyeuristic affair between a radio astronomer and Dark Matter radium s atomic aubade for Marie and Pierre Curie and the shrill love song of Gregor Mendel s cross pollinated pea plants With intelligence and wonder Quiver comes to understand the pursuits of science and beauty as one and the same rendering an exquisite world where the graph of a mathematical equation can become the image of love s witness running with its arms open all the way home In deft musical lyrics that are by turns formal and experimental studied and accessible meditative and pragmatic Somers Willett portrays scientific phenomena in strikingly intimate ways Every mystery connects in her universe revealing a relationship between science and human sentiment that is as surprising as it is profound University of Georgia Press **Hive** ,2014 [The Hive Burning](#) Sarah Cotterill,1983 **In the Nocturnal Animal House** Sarah Cotterill,1991 Sarah Cotterill s poems bring together the dramas of ordinary life and a complex understanding of the natural world The poems are moments of suspension early bridges braided of things found on the ground in the wild They are meant for travel on foot and in solitude When we trust our weight to one the whole of the bridge shifts though the lines and their connections remain firm and the bridge shifts again with each step Its symmetry changes our perspective changes We are exposed reminded of the delicacy of its materials and of their strength tensile strength On ever side looms the world s great beauty and also its peril the long drop The flexibility of a web accounts for much of its strength and resiliency So too are these poems shaped by a lyric flexible resilient language a range and variability of image form and tone But always they are tied to the poet s experience the great and small events of a private life at once lived and observed These poems never stray far from awareness of the strangeness elegance and peril of the natural world or of humankind s place therein They never stray far either from a sense of the fragility of human ties their infinite worth the care which must be taken to sustain them the costs of inattention These poems are moments of suspension They begin on ground we know When we step away from the far close of their span we find ourselves in a new place Lucky for the bridge being there Grateful *The Hive.
