The Homosexual Question:

The Homosexual Question Marc Oraison, 1977 How Should We Think About Homosexuality? (Questions for Restless Minds) Mark A. Yarhouse, 2022-02-02 Do you have an informed and biblical view on homosexuality In How Should We Think About Homosexuality Mark A Yarhouse brings his expertise to bear on this question If we are to speak with clarity and conviction we must first be informed Christianity has long held a sexual ethic regarding creation family and sexuality and Christians must know how to relate to other views of sexuality Yarhouse considers how to think about recent scientific findings and sexual identity language before suggesting avenues of fruitful discipleship for same sex attracted Christians

New Intimacies, Old Desires Oishik Sircar, Dipika Jain, 2017-06-21 In the last 15 years queer movements in many parts of the world have helped secure the rights of queer people These moments have been accompanied by the brutal rise of crony capitalism the violent consequences of the war on terror the hyper juridification of politics the financialization managerialization of social movements and the medicalization of non heteronormative identities practices How do we critically read the celebratory global proliferation of queer rights in these neoliberal times This volume responds to the complicated moment in the history of queer struggles by analysing laws state policies and cultures of activism to show how new intimacies between queer sexuality and neoliberalism that celebrate modernity and the birth of the liberated sexual citizen are in fact reproducing the old colonial desire of civilizing the native By paying particular attention to the problematics of race religion and class this volume engages in a rigorous self reflexive critique of global queer politics and its engagements confrontations and negotiations with modernity and its investments in liberalism legalism and militarism with the objective of queering the ethics of our queer politics Published by Zubaan De-Moralizing Gay Rights Cyril Ghosh, 2018-05-18 This book critically interrogates three sets of distortions that emanate from the messianic core of 21st century public discourse on LGBT rights in the United States The first relates to the critique of pinkwashing often advanced by scholars who claim to be committed to an emancipatory politics The second concerns a recent US Supreme Court decision *Obergefell v Hodges* 2015 a judgment that established marriage equality across the 50 states The third distortion occurs in Kenji Yoshino's theorization of the concept of gay covering Each distortion produces its own injunction to assimilate sometimes into the dominant mainstream and at other times into the fold of what is axiomatically taken to be the category of the radical Using a queer theoretic analysis *De Moralizing Gay Rights* argues for the dismantling of each of these three sets of assimilationist injunctions **Coming Out Under Fire** Allan Bérubé, 2010-09-07 During World War II as the United States called on its citizens to serve in unprecedented numbers the presence of gay Americans in the armed forces increasingly conflicted with the expanding antihomosexual policies and procedures of the military In *Coming Out Under Fire* Allan B rub examines in depth and detail these social and political confrontation not as a story of how the military victimized homosexuals but as a story of how a dynamic power relationship developed between gay citizens and their government

transforming them both Drawing on GIs wartime letters extensive interviews with gay veterans and declassified military documents B rub thoughtfully constructs a startling history of the two wars gay military men and women fought one for America and another as homosexuals within the military B rub s book the inspiration for the 1995 Peabody Award winning documentary film of the same name has become a classic since it was published in 1990 just three years prior to the controversial don t ask don t tell policy which has continued to serve as an uneasy compromise between gays and the military With a new foreword by historians John D Emilio and Estelle B Freedman this book remains a valuable contribution to the history of World War II as well as to the ongoing debate regarding the role of gays in the U S military The Holocaust and History United States Holocaust Memorial Museum,2002-07-02 The Holocaust and History examines the various disputes surrounding the Holocaust examining why it should have come about how different sets of people reacted to it and what lessons should be learned for the future **The homosexual question** Marc Oraison,1977 *The Homosexual and His Society* Donald Webster Cory,John P. LeRoy,1963 **Welcome to the Gay Age** John L. Kavanaugh,2004 The first apartheid law that South Africa rescinded was their law forbidding interracial marriage The first law that was instituted by the Christian Roman emperors against homosexuality was a law forbidding homosexual marriages Those two actions might well be viewed as brackets containing what we might refer to as the modern age We may already be in the post modern age Certainly we still have all sorts of problems to resolve Those laws against homosexual and interracial marriages are symbols of the prejudices and discriminations that the modern age has been and of the fear behind those prejudices and discriminations **The sexual life of our time: a complete encyclopaedia of the sexual** Iwan Bloch,1937 The Case for Gay Rights David A. J. Richards,2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description *Teacher's Question-and-answer Book on Sex Education* Lester Allen Kirkendall,Ruth Farnham Osborne,1969 **Morality Politics in American Cities** Elaine B. Sharp,Yvette M. Alex-Assensoh,2005 Topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in

how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study *Morality Politics in American Cities* is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative *Morality Politics in American Cities* demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics *Theories of Homosexuality* Martin Dannecker,1981

The Problem of Neutralization in Homosexuality Anthony Gutierrez Poveda,1967 **Challenge of the Disciplined Life Study Guide** Richard J. Foster,1989-08 **Laws of Desire** Paul Julian Smith,1992 Homosexuality has been treated only in a fragmentary way in Hispanic Studies and this is the first full length study of the subject in contemporary Spanish writing and film Introducing the book with a brief account of some medical legal and polemical texts Paul Julian Smith an established authority on Hispanic Studies charts the varying representations of the feminist or gay self in autobiographical texts by Chacel Goytisolo and Terenci Moix He goes on to offer radically new readings of trilogies by Goytisolo and Tusquets the major novelists of homosexual desire in Spain in the light of influential French theorists Hocquenghem and Wittig Finally Smith draws on archival research at the Filmoteca Nacional to offer a broadly historical account of Eloy de la Iglesia and Pedro Almodóvar the two major gay auteurs of post Franco film Particular attention is paid to their use of cinematic form and the book ends with an analysis of Almodóvar's *Atome Tie me up Tie me down* a film which exemplifies the main argument of the book that homosexuality is no unitary phenomenon but rather a historical and libidinal construct inevitably inflected by gender class and regional identity **The Lancet** ,1947 **Taking Sides** M. arguments of leading legal scholars judges and legal commentators reflect a variety of viewpoints and are staged as pro and con debates Issues debated include the operation of legal institutions law and social values and law and crime Film Studies W.
