Time-Travel Television Sherry Ginn,Gillian I. Leitch,2015-10-08 Stories of time travel have been part of science fiction since H G Wells sent his nameless hero hurtling into Earth s distant future in The Time Machine Time travel enables the storyteller to depict alternate realities bring fictional characters face to face with historical figures and depict moral and ethical dilemmas in which millions of lives or the world as we know it are at stake From Doctor Who and Quantum Leap to the multiple incarnations of Star Trek time travel has been a staple of science fiction television for more than fifty years Time Travel Television The Past from the Present the Future from the Pastsurveys the whole range of time travel stories on the small screen The essays in this collection explore time travel series both familiar Babylon 5 Stargate SG 1 and forgotten The Time Tunnel Voyagers as well as time travel themed episodes and arcs in series where it is not central such as Red Dwarf Lost and Heroes Contributors to this volume consider some of the classic themes of time travel stories the promise and peril of fixing the past the chance to experience and choose possible futures and the potential for small changes to have great effects Exploring time travel as a teaching tool as a vehicle for moral lessons and as a background for high adventure this book offers new perspectives on many familiar programs and the first serious study of several unjustly neglected ones Time Travel Television is essential reading for science fiction scholars and fans and for anyone interested in the many ways that television brings the fantastic into viewers living rooms

**Time Travel in Popular Media** Matthew Jones,Joan Ormrod,2015-03-27 In recent years numerous films television series comic books graphic novels and video games have featured time travel narratives with characters jumping backward forward and laterally through time No rules govern time travel in these stories Some characters move by machine some by magic others by unexplained means Sometime travelers can alter the timeline while others are prevented from causing temporal aberrations The fluid forms of imagined time travel have fascinated audiences and prompted debate since at least the 19th century What is behind our fascination with time travel What does it mean to be out of one s own era How do different media tell these stories and what does this reveal about the media s relationship to time This collection of new essays the first to address time travel across a range of media answers

these questions by locating time travel narratives within their cultural historical and philosophical contexts Texts discussed include Doctor Who The Terminator The Georgian House Save the Date Back to the Future Inception Source Code and others

**Now and Then We Time Travel** Fraser A. Sherman, 2017-01-11 More than 400 films and 150 television series have featured time travel stories of rewriting history lovers separated by centuries journeys to the past or the often dystopian future This book examines some of the roles time travel plays on screen in science fiction and fantasy Plot synopses and credits are listed for films and TV series from England Canada the UK and Japan as well as for TV and films from elsewhere in the world Tropes and plot elements are highlighted The author discusses philosophical questions about time travel such as the logic of timelines causality what s to keep time travelers from jumping back and correcting every mistake and morality if you correct a mistake are you still guilty of it *The Mammoth Book of Time Travel SF* Mike Ashley, 2013-07-04 This thought provoking collection not only takes us into the past and the future but also explores what might happen if we attempt to manipulate time to our own advantage These stories show what happen once you start to meddle with time and the paradoxes that might arise It also raises questions about whether we understand time and how we perceive it Once we move outside the present day can we ever return or do we move into an alternate world What happens if our meddling with Nature leads to time flowing backwards or slowing down or stopping all together Or if we get trapped in a constant loop from which we can never escape Is the past and future immutable or will we ever be able to escape the inevitable These are just some of the questions that are raised in these challenging exciting and sometimes amusing stories by Kage Baker Simon Clark Fritz Leiber Christopher Priest Kristine Kathryn Rusch Robert Silverberg Michael Swanwick John Varley and many others

**Philosophy of Time** Sean Enda Power, 2021-05-26 As a growing area of research the philosophy of time is increasingly relevant to different areas of philosophy and even other disciplines This book describes and evaluates the most important debates in philosophy of time under several subject areas metaphysics epistemology physics philosophy of language philosophy of mind cognitive science rationality and art Questions this book investigates include the following Can we know what time really is Is time possible especially given modern physics Must there be time because we cannot think without it What do we experience of time How might philosophy of time be relevant to understanding the mind body relationship or evidence in cognitive science Can the philosophy of time help us understand biases toward the future and the fear of death How is time relevant to art and is art relevant to philosophical debates about time Finally what exactly could time travel be And could time travel satisfy emotions such as nostalgia and regret Through asking such questions and showing how they might be best answered the book demonstrates the importance philosophy of time has in contemporary thought Each of the book s ten chapters begins with a helpful introduction and ends with study questions and an annotated list of further reading This and a comprehensive bibliography at the end of the book prepare the reader to go further in their study of the philosophy of time *Trauma in 21st-Century Time Travel Cinema* Kwasu D. Tembo, 2025-11-13 Kwasu D Tembo unites

approaches from disciplines as wide ranging as physics mathematics cinema philosophy and media theory to pose critical questions concerning time change and un becoming in contemporary time travel cinema In his analyses of 21st century cinematic time travel narratives Tembo situates human life in time as a palimpsest with time acting as scriptor and stylus A time machine then functions as a fantasy that allows for this pace to be slowed or accelerated so as to appear entirely suspended with the potentials of the Now re opened to the traveler As the manipulation of time lends the traveler increased agency and perhaps the conditions to see themselves more clearly amid a claustrophobic sea of information and content Tembo contends that we must carefully consider the psycho emotional affectivity of both the motivations and the potentially traumatic consequences of such a jarring shift in perspective The results lend critical insight into human understandings of how we experience time and ultimately what these understandings permit and disallow in terms of how it is to be in time
