## **The New World:**

The New World Government-Structure and Constitution Prof. Dr. D. Swaminadhan, 2019-03-24 Two issues are bothering the humanity at present Firstly the contemporary national and international scenarios in socioeconomic political ethnic and cultural domains are throwing up many issues problems and challenges relating to development environment human rights human security communal harmony peaceful coexistence among nations and world peace and security Secondly existing global institutions are proving to be wanting in their structures and authorities in solving these problems Alternatively a new global independent organization with enforcing authority is needed to act upon and solve these issues The need for replacement of UNO seems to be justified because of failure to solve global problems The nineteenth and twentieth centuries witnessed revivals of proposals for world government that were fueled by positive developments such as technological progress in travel and communications that enabled rapid economic globalization as well as negative developments such as the devastating impact of wars fought with modern technology The author's approach of the formation of the world parliament is through proportional representation of nation's parliaments thus avoids direct election process for its formation All the nations and their people's representatives are involved in the formation of the World Parliament and the world government Based on this line of thinking the structure for a new federal world government and the new federal world constitution are presented in this book *The Old World, the New World, and the Creation of the Modern World, 1400-1650*

Aaron M. Shatzman, 2013-08-01 The Old World the New World and the Creation of the Modern World 1400-1650 An Interpretive History provides a unique look at the early years of European discovery and colonization examining the impact of this period on the historical development of both the New and Old Worlds The text is enhanced by the incorporation of a wide variety of original source material allowing readers to benefit from a more first hand experience of the historical events of the period Providing the essential facts in conjunction with expert analysis the volume poses a number of important questions to enable readers to construct their own analysis of the evidence presented Uniquely the volume goes beyond the standard textbook formula of what when and where to delve more deeply into the specific as well as the wider significance of historical developments thereby providing the platform for a textured interpretive understanding of the history of the Atlantic world

*The New World on Mars* Robert Zubrin, 2024-08-15 A fascinating and enticing vision of the utopian New World that Robert Zubrin believes could and should be created on the Red Planet Martin Rees The world's leading expert on the human settlement of Mars explains what Martian societies will look like sooner than we think Within a few years humans will be able to voyage to Mars SpaceX is at the forefront of companies already building fleets of spaceships to make interplanetary travel as affordable as Old World passage to America to the then New World We will settle the red planet transforming its raw materials into resources and tackling the challenges that await us creating a new frontier for humankind Dr Robert Zubrin explains how populous Martian city states will emerge producing their own air water food power and more How they must be

beautiful to attract settlers and what that might look like How the primary exports are unlikely to be material goods but intellectual products created by a technically adept population in a frontier environment where people will be forced to innovate including GMOs robotics AI and power production Zubrin even predicts the red planet's customs social relations and government of the people by the people for the people with inalienable individual rights that will overcome traditional forms of oppression to draw talented Earth immigrants In 1776 Thomas Paine wrote We have it in our power to begin the world over again Zubrin inspires us to embrace another magnificent future today With the right pieces in place his red planet will become a pressure cooker for invention benefiting humans on Earth Mars and beyond The New World on Mars proves that there is no point killing each other over provinces on Earth when together we can create planets

**Where the New World Is** Martyn Bone, 2018-01-15 *Where the New World Is* assesses how fiction published since 1980 has resituated the U.S. South globally and how earlier twentieth century writing already had done so in ways traditional southern literary studies tended to ignore Martyn Bone argues that this body of fiction has over the course of some eighty years challenged received readings and understandings of the U.S. South as a fixed place largely untouched by immigration or even internal migration and economic globalization The writers discussed by Bone emphasize how migration and labor have reconfigured the region's relation to the nation and a range of transnational scales hemispheric Jamaica the Bahamas Haiti transatlantic Black Atlantic Denmark England Mauritania and transpacific global southern Australia China Vietnam Writers under consideration include Zora Neale Hurston Nella Larsen John Oliver Killens Russell Banks Erna Brodber Cynthia Shearer Ha Jin Monique Truong Lan Cao Toni Morrison Peter Matthiessen Dave Eggers and Laila Lalami The book also seeks to resituate southern studies by drawing on theories of scale that originated in human geography In this way Bone also offers a new paradigm in which the U.S. South is thoroughly engaged with a range of other scales from the local to the global making both literature about the region and southern studies itself truly transnational in scope
