The Contrarians A Novel:

The Contrarians Gary Sernovitz, 2014-05-20 A bold and insightful novel detailing a young Wall Street analyst's fall from grace Chris Kelch is at the top of his game one of Freshler Feld's rising stars At only twenty eight he's one of the highest rated equity research analysts in his sector last year he pulled down nearly half a million dollars His personal life is also on a roll his girlfriend the comely Kersten Henry couldn't be more supportive Kelch's small town single parent Midwestern roots seem far behind But when a thinly veiled profile of Kelch runs in a prominent magazine things start to go downhill Not only does the piece reveal company secrets and cast Freshler Feld in a bad light it also makes him feel like a dupe the author tricked him into giving an interview And it reveals far more about Kelch's conflicted feelings about his past and his job than he has admitted even to himself Then a stock Kelch handpicked falters and things go from bad to worse as he is forced to examine just about every assumption decision and mistake he's ever made With suspense and style Gary Sernovitz's *The Contrarians* not only creates one of the most memorable money men in recent American fiction it also examines as no novel has done before the rise and the seeds of the fall of late nineties Wall Street **Armageddon in Waco** Stuart A.

Wright, 1995-09-20 On February 28 1993 the United States Bureau of Alcohol Tobacco and Firearms BATF launched the largest assault in its history against a small religious community in central Texas One hundred agents armed with automatic and semi automatic weapons invaded the compound purportedly to execute a single search and arrest warrant The raid went badly four agents were killed and by the end of the day the settlement was surrounded by armored tanks and combat helicopters After a fifty one day standoff the United States Justice Department approved a plan to use CS gas against those barricaded inside Whether by accident or plan tanks carrying the CS gas caused the compound to explode in fire killing all seventy four men women and children inside Could the tragedy have been prevented Was it necessary for the BATF agents to do what they did What could have been done differently *Armageddon in Waco* offers the most detailed wide ranging analysis of events surrounding Waco Leading scholars in sociology history law and religion explore all facets of the confrontation in an attempt to understand one of the most confusing government actions in American history The book begins with the history of the Branch Davidians and the story of its leader David Koresh Chapters show how the Davidians came to trouble authorities why the group was labeled a cult and how authorities used unsubstantiated allegations of child abuse to strengthen their case against the sect The media's role is examined next in essays that considering the effect on coverage of lack of time and resources the orchestration of public relations by government officials the restricted access to the site or to countervailing evidence and the ideologies of the journalists themselves Several contributors then explore the relation of violence to religion comparing Waco to Jonestown Finally the role played by experts and consultants in defining such conflicts is explored by two contributors who had active roles as scholarly experts during and after the siege The legal and constitutional implications of the government's actions are also analyzed in balanced clearly written detail Contrarian

Investment Strategies: the Next Generation David Dreman, 2008-06-30 David Dreman's name is synonymous with the term contrarian investing and his contrarian strategies have been proven winners year after year. His techniques have spawned countless imitators, most of whom pay lip service to the buzzword contrarian but few can match his performance. His Kemper Dreman High Return Fund has been the leader since its inception in 1988, the number one equity income fund among all 208 ranked by Lipper Analytical Services Inc. Dreman is also one of a handful of money managers whose clients have beaten the runaway market over the past five, ten, and fifteen years. Now, as the longest bull market in the history of the stock market winds down, there is increasing volatility and a great deal of uncertainty. This is the climate that tests the mettle of the pros, the worries of the average investor, and the success of David Dreman's brilliant new strategies for the next millennium.

Contrarian Investment Strategies: The Next Generation shows investors how to outperform professional money managers and profit from potential Wall Street panics, all in Dreman's trademark style, which *The New York Times* calls witty and clear as a silver bell. Dreman reveals a proven, systematic and safe way to beat the market by buying stocks of good companies when they are currently out of favor. At the heart of his book is a fundamental psychological insight: investors overreact. Dreman demonstrates how investors consistently overvalue the so-called best stocks and undervalue the so-called worst stocks, and how earnings and other surprises affect the best and worst stocks in opposite ways. Since surprises are a way of life in the market, Dreman shows you how to profit from these surprises with his ingenious new techniques, most of which have been developed in the nineties. You'll learn why contrarian stocks offer extra protection in bear markets, as well as delivering superior returns when the bull roars. Why a high dividend yield is just as important for the aggressive investor as it is for widows and orphans. Why owning Treasury bills and government bonds, the safest investments for centuries, is like being fully margined at the top of the 1929 market. Why Initial Public Offerings are a guaranteed loser's game. Why you should avoid Nasdaq, the market of the next hundred years, like the plague. Why crisis, panic, and even market downturns are the contrarian investor's best friend. Why the chances of hitting a home run using the Street's best research are worse than being the big winner in the New York State Lottery. Based on cutting-edge research and irrefutable statistics, David Dreman's revolutionary techniques will benefit professionals and laymen alike.

Social Avalanche Christian Borch, 2020-01-09 A compelling account of how crowd dynamics or social avalanches are central to cities and financial markets. Just as urban inhabitants are prone to being caught up in the city's flux, the same dynamic can cause traders on financial exchanges and even the algorithms of present-day financial markets to be captured by the maelstrom of the market.

Forthcoming Books Rose Army, 2003 *Trolling Before the Internet* David Rudrum, 2024-11-14 Trolling began long before the internet. This accessible history traces the ancestry of its textual and rhetorical strategies by looking at literature from ancient Greece to the 1980s. Trolling is the most controversial genre of writing to have risen to prominence in the 21st century, with far-reaching consequences for its writers and readers alike. But it is too often regarded as a technological problem confined to the internet.

This book takes a very different approach it regards trolling as a cultural problem with a long and venerable literary history Taking in the contrarianism of Lord Byron the wit of Oscar Wilde insult trading in Shakespeare Jonathan Swift s disaster trolling Martin Luther s dissemination of heresy through a public discussion forum the grotesquely misogynistic abuse hurled in Archilochus s poetry the taunting provocations of avant garde manifestos and not forgetting public humiliations in Beowulf David Rudrum demonstrates that trolls rhetorical shenanigans are neither new nor unvanquishable **The Book Review Digest** ,2006 Book Review Index ,2003 Every 3rd issue is a quarterly cumulation The Book Review ,2000 The Magazine of Fantasy & Science Fiction ,2002-04 Journal of Economic Literature ,2007 **The Believer** ,2003 Kiplinger's Personal Finance ,2003 Readers' Guide to Periodical Literature Anna Lorraine Guthrie,Bertha Tannehill,Neltje Marie Tannehill Shimer,1989 An author subject index to selected general interest periodicals of reference value in libraries *Humanity's Environmental Future* Ross McCluney,2004 McCluney comprehensively examines the wide variety of difficult environmental and socio economic problems facing humanity as it struggles toward a sustainable future *Environmental Studies* Kiplinger's Personal Finance Magazine ,2003 **Contemporary Authors New Revision Series** ,2005 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers The New York Times Index ,2002 **The Publishers Weekly** ,2002 **Henry Fielding in Our Time** James Alan Downie,2008 Henry Fielding In Our Time publishes many of the papers presented at the international conference held at the University of London 19 21 April 2007 to commemorate the tercentenary of his birth Written by established scholars including the acknowledged doyen of Fielding scholars Martin C Battestin of the University of Virginia as well as younger scholars who successfully bring their recent research to bear on neglected areas of Fielding TM s life and works the essays offer a cross section of current approaches to Fielding and his writings from his ballad operas poetry and political journalism via Joseph Andrews Tom Jones and Amelia the novels for which he is still best known to the social pamphlets written during his years at Bow Street as magistrate for Westminster and Middlesex The collection should appeal both to undergraduate and postgraduate students as well as academics and general readers interested in the eighteenth century in general and Fielding TM s contribution to the emergence and development of the novel form in particular
