The History of the Creeds Francis John Badcock,1930      **The Historical Problem with Creeds** Kenneth

Arndt,2017-11-08 This short book deals with the debate among Christians about the timing of the Second Coming of Jesus Christ There are several viewpoints on this topic each with its defenders Is Christ coming again in the future and in what sequence of events will that happen Or did the Second Coming of Christ happen in the past as some scripture seem to say when it describes the time as quickly The Creeds have not really dealt with this issue in any definitive statement other than to say he is coming again All Christians believe that there will be a final coming in judgment to sum up human history The authority for Christians on this issue is the Bible the Word of God The two viewpoints dealt with in this book are Preterist in the past and Futurist in the future While not an extended support of either position although the author is a preterist by conviction this book speaks out against the futurist writers identifying a preterist as a heretic Often relying on the Creeds there is a lack of historical scholarship on just how the Creeds were constructed In the view of the author a preterist even if mistaken does not hold to a belief or reading of the scripture that rises to the level of heresy The attacks against preterists are unwarranted unkind and unworthy of Christian scholarship      A History of Early Christian Creeds Wolfram

Kinzig,2024-07-01 This history of early Christian creeds contains an up to date account of their origin and development from the credal texts in the New Testament to the fully fledged classical formulae of the 4th century It includes the creeds use and alteration in subsequent periods until the time of Charlemagne and the beginnings of the filioque controversy In addition the author provides a scholarly commentary on the most common ancient confessions the Nicene Creed and the Apostles Creed Going beyond previous studies the book contains chapters dedicated to the use of creeds in law art music everyday life and even magic Recently discovered source texts such as a new Ethiopic version of the Roman Creed and a short recension of the Creed of Nicaea Constantinople receive extensive treatment Credal developments in the eastern churches beyond the borders of the Roman Empire complete this comprehensive overview This volume is intended both as a textbook for advanced students of theology and cognate disciplines and as a reference book on the creeds in a wide range of contexts All source texts are accompanied by modern English translations Winner of the Alberigo Award 2024 awarded by the European Academy of Religion      **Bibliotheca Symbolica Ecclesiae Universalis: The history of creeds** Philip Schaff,1899
