Brett, 2012-04-15 The Sisters of the Holy Family founded in New Orleans in 1842 were the first African American Catholics to serve as missionaries This story of their little known missionary efforts in Belize from 1898 to 2008 builds upon their already distinguished work through the Archdiocese of New Orleans of teaching slaves and free people of color caring for orphans and the elderly and tending to the poor and needy Utilizing previously unpublished archival documents along with extensive personal correspondence and interviews Edward T Brett has produced a fascinating account of the 110 year mission of the Sisters of the Holy Family to the Garifuna people of Belize Brett discusses the foundation and growth of the struggling order in New Orleans up to the sisters decision in 1898 to accept a teaching commitment in the Stann Creek District of what was then British Honduras The early history of the British Honduras mission concentrates especially on Mother Austin Jones the superior responsible for expanding the order's work into the mission field In examining the Belizean mission from the eve of

the Second Vatican Council through the post Vatican II years Brett sensitively chronicles the sisters efforts to conform to the spirit of the council and describes the creative innovations that the Holy Family community introduced into the Belizean educational system In the final chapter he looks at the congregation s efforts to sustain its missionary work in the face of the shortage of new religious vocations Brett s study is more than just a chronicle of the Holy Family Sisters accomplishments in Belize He treats the issues of racism and gender discrimination that the African American congregation encountered both within the church and in society demonstrating how the sisters survived and even thrived by learning how to skillfully negotiate with the white dominant power structure

Moon Joseph Henry Fichter,1985 **The Holy Family Model Not Exception** Mary Shivanandan,Mary Shivanandan
Std,2018-03-19 Description of Book The communion of love between the Father Son and Holy Spirit is the source from which love in the human family springs according to contemporary Catholic Theology The Holy Family from the Middle Ages in Europe was considered the earthly Trinity but because there was no conjugal intercourse it was considered the exception In her book Shivanandan argues that Christ is the model for all human love in His conforming to the father s will The Holy Family with Christ at the center is therefore the model for all baptized human families Shivanandan traces how the family as a communion of persons came about and is lived in Western culture along with distortions which affect it today Until the role of Joseph as husband and father and a philosophy of the person and communion of persons both of which matured in the 19th and 20th centuries were developed a full understanding of the Holy Family and by corollary the human family as a communion of persons imaging divine Trinitarian communion could not come about Central to the author s theme is the understanding of the human person as gift and his her fulfillment as self gift to God and or another human being especially according to the teaching of St John Paul II The Holy Family witnesses both to celibacy for the kingdom and human spousal love In the central portion of the book the author spells out what it means to be a communion of persons both in the Holy Family and human families The person both as man or woman is in a unique relationship with God Sexual difference while intrinsic to the person made in God s image never obscures the equality of his her being a person whose freedom is fundamental The spousal relation while giving different roles to man and woman must always respect especially the personhood of the woman Similarly motherhood and fatherhood have distinct gifts and tasks The bodily nursing of the infant by the mother in imitation of Mary is particularly emphasized The importance of the child is stressed since our destiny is to be adopted children of the Father A pivotal chapter spells out the importance of Presence presence of Christ s presence in the family and of bodily presence of family members to each other A chapter is devoted to how the Church s teaching in the encyclical *Humanae vitae* helps to bring about the communion of persons Far from being a barrier to spousal love it enhances it although not without effort and a certain suffering The two final chapters consider *Lumen Gentium* s universal

call to holiness and sin and conversion While sin is the usual path of man and woman after the Fall Christ's redeeming power in the sacraments enables weak human beings to surmount their weaknesses and live the full measure of the communion of persons in the family in other words to be holy families like the Holy Family The book has particular relevance in our culture today confused as it is over the identity of man and woman and marriage Women seek to become like men in order participate in society regarding their feminine gift of fertility and nurturing as detrimental Some men on the other hand seek to become women This book following John Paul II shows a better way that both affirms women's legitimate desires to be honored as human persons first and at the same time calls for a true appreciation of masculine gifts Without mutual submission to the Creator of the Universe who is a Communion of Love men and women cannot find the communion of love they seek and which is essential for their own flourishing and that of children and families The Holy Family is indeed the model not the exception

Depicting Canada's Children Loren Lerner, 2009-05-20 *Depicting Canada's Children* is a critical analysis of the visual representation of Canadian children from the seventeenth century to the present Recognizing the importance of methodological diversity these essays discuss understandings of children and childhood derived from depictions across a wide range of media and contexts But rather than simply examine images in formal settings the authors take into account the components of the images and the role of image making in everyday life The contributors provide a close study of the evolution of the figure of the child and shed light on the defining role children have played in the history of Canada and our assumptions about them Rather than offer comprehensive historical coverage this collection is a catalyst for further study through case studies that endorse innovative scholarship This book will be of interest to scholars in art history Canadian history visual culture Canadian studies and the history of children *Scribner's Monthly, an Illustrated Magazine for the People*, 1874
