

The Model That Brings Our Mission to Life

Our efficient and effective three-step model provides kids with the essentials they need, free of charge. This enables us to engage communities that have, connecting them with communities that need.

- New and nearly new children's items are collected through grassroots community drives and corporate donations.
- Donations are then processed and packaged by volunteers in our warehouse, The Giving Factory®.
- Packages from The Giving Factory are distributed to local children — through our collaborative network of diverse service partners.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
