The Middle Passage 105 Days:

Training Black Spirit William L. Conwill, Ph.D., 2016-05-16 Like all teens African American teens find themselves wondering what they should or should not be doing and how they should behave toward each other only they often have no male role model in the home and negative models like gang banger on the street As they struggle to build their characters they receive feedback from multiple sources causing confusion TRAINING BLACK SPIRIT offers a guide through the fog of adolescence by providing a personal training aid in ethics values especially tailored for Black teens TRAINING BLACK SPIRIT holds that our spirits which protect and sustain us direct and unify our thoughts efforts and actions Author Dr William L Conwill helps Black teens prepare for adulthood in the family the community and the world by developing their characters TRAINING BLACK SPIRIT builds upon African American cultural heritage which is all too often absent from Black teens experience The principles presented in TRAINING BLACK SPIRIT provide directives or instructions on living as well as a defense against destructive influences like drugs and violence These principles are represented throughout the text by Adinkra symbols along with a martial arts self defense interpretation for each principle which teens discuss with an adult facilitator Drawing on brain science transpersonal psychology and mainstream psychiatry as well as ancient traditions TRAINING BLACK SPIRIT guides Black teens in conducting a personal and conscious examination of the traditional principles that enable us to survive create and nurture life Keeping teens from heading down the wrong road is an increasing challenge TRAINING BLACK SPIRIT is a guide for young black teens to explore their personal values or ethics through the use of symbols and values from West African culture to help build character TRAINING BLACK SPIRIT prepares teens for obstacles they will meet with in life providing values and behaviors for coping with challenging life experiences In light of recent events in Ferguson Baltimore and elsewhere many black teens find themselves at a crossroads Who are they today and who do they want to be in the future TRAINING BLACK SPIRIT is a guide for teens dealing with these difficult challenges As a psychologist Dr Conwill has worked extensively with teens in various settings helping them their challenges providing ethical principles to guide them through

Ringshout! Estella Conwill Majozo, Ph.D., 2014 This book should be in the hands of every member of this new and promised generation It is just that powerful Parents can share it with their children Teachers with their students Mentors with their mentees And friends with each other It presents the history of America through the African American perspective and prepares young people everywhere to begin to take their rightful place as conscious committed leaders in the new world

Archaeoastronomy and the Maya Gerardo Aldana y Villalobos, Edwin L. Barnhart, 2014-05-30 Archaeoastronomy and the Maya illustrates archaeoastronomical approaches to ancient Mayan cultural production The book is contextualized through a history of archaeoastronomical investigations into Mayan sites originating in the 19th century discovery of astronomical tables within hieroglyphic books Early 20th century archaeological excavations revealed inscriptions carved into stone that also preserved astronomical records along with

architecture that was built to reflect astronomical orientations These materials provided the basis of a growing professionalized archaeoastronomy blossoming in the 1970s and expanding into recent years The chapters here exemplify the advances made in the field during the early 21st century as well as the on going diversity of approaches presenting new perspectives and discoveries in ancient Mayan astronomy that result from recent studies of architectural alignments codices epigraphy iconography ethnography and calendrics More than just investigations of esoteric ancient sciences studies of ancient Mayan astronomy have profoundly aided our understanding of Mayan worldviews Concepts of time and space meanings encoded in religious art intentions underlying architectural alignments and even methods of political legitimization are all illuminated through the study of Mayan astronomy

Scientific Sources and Teaching Contexts Throughout History: Problems and Perspectives Alain Bernard,Christine Proust,2013-11-26 This book examines the textual social cultural practical and institutional environments to which the expression teaching and learning contexts refers It reflects on the extent to which studying such environments helps us to better understand ancient or modern sources and how notions of teaching and learning are to be understood Tackling two problems the first is that of certain sources of scientific knowledge being studied without taking into account the various contexts of transmission that gave this knowledge a long lasting meaning The second is that other sources are related to teaching and learning activities but without being too precise and demonstrative about the existence and nature of this teaching context In other words this book makes clear what is meant by context and highlights the complexity of the practice hidden by the words teaching and learning Divided into three parts the book makes accessible teaching and learning situations presents comparatist approaches and emphasizes the notion of teaching as projects embedded in coherent treatises or productions
