Chiasson, 1995-09-30 Throughout American history the press has been incredibly adept at making the public aware The history of the press in crisis situations is in many ways the story of public attitudes and the story of America This book looks at the press over time and the way it has functioned in times of crisis It considers press coverage of 13 events spanning a time frame that includes the birth of the nation its political economic and social struggles as a young country and its civil war It tells how a young agrarian society grew into an industrial giant and how it changed from isolationist to a world power It relates how this country coped with the growth of socialism two world wars civil unrest and with the problem of world overpopulation The American press has performed various functions throughout the years The Colonial Press served as a vehicle of discussion debate and finally agitation and in the process may have defined itself and laid a groundwork for the press s future roles The press has agitated advocated and persuaded It has been duped it has been unfair and it has misled This volume considers such concepts as advocacy journalism a central theme of the chapters on abolitionists and David Duke and social responsibility a primary part of the chapter on Japanese American internment The press s attempt to lead public opinion is the focus of the chapters on the partisan press the antebellum period and the first Red Scare in 1919 The chapter on Joseph McCarthy looks at the concepts of objectivity and the use and misuse of pseudo news The final chapter on overpopulation deals extensively with agenda setting **Journalistic Standards in Nineteenth-century America** Hazel Dicken Garcia, 1989 In the early nineteenth century critics believed the press was destroying social structure eroding law and order and the institutions of the family religion and education To counter these effects they advocated among other things eradicating Sunday newspapers and subversive content such as news of crime sex and sporting events Dicken Garcia traces the relationship between societal values and the press coverage of issues and events Setting out to tame the press by understanding it she argues critics had begun to dissect it In the process they articulated the rudiments of journalistic theory and proposed what issues should be addressed by journalists what functions should be undertaken and what standards should be imposed **History of the Mass Media in the United States** Margaret A.
