Roberts.] John Thomas,1872 **The Mayan Code** Barbara Hand Clow,2007-03-29 Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution Unearths the meaning behind the calendar its message for modern civilization and what will happen after the calendar ends Reveals how time acceleration is a manifestation of the acceleration of consciousness By the author of The Pleiadian Agenda The Mayan Code is a deep exploration of how with the end of the Mayan Calendar time and consciousness have been accelerating giving us a new understanding of the universe Using Carl Johan Calleman's research as well as the ideas of other Mayan Calendar scholars Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth the World Mind These great patterns culminated in 2011 but subsequent astrological influences have continued to inspire us to attain oneness and enlightenment The Mayan Code shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy These stages of evolution converged during the final stage of the Calendar the period between 1999 and 2011 Evidence of the tightening spiral of time that we experience as time speeding up war and territoriality resource management and separation from nature are all part of daily events we must process during the coming years Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human evolution now referred to as the awakening of the World Mind *Genesis Unveiled. H.,1909 **Genesis Revealed** Peter Waller, The lines have been drawn On one side are young earth creationists who assert that God created the universe in six days and based on calculations derived from the Bible that the earth is six thousand years old On the other side are secular scientists who claim the universe has existed for over thirteen billion years the earth for 4.5 billion Scientists claim that no miracles were necessary to form the universe and that everything is explained by natural causes However young earth creationists point to verses at the beginning of the Bible and the beginning of the book of John that clearly claim that God created the universe In the beginning God created the heavens and the earth The earth was formless and void and darkness was over the surface of the deep and the Spirit of God was moving over the surface of the waters Genesis 1:1-2 In the beginning was the Word and the Word was with God and the Word was God He was in the beginning with God All things were made by him and without him was not anything made that was made John 1:1-3 But what if there is no contradiction between scientific data and the Bible Arnold Guyot was a nineteenth century geologist and geographer at Princeton University In addition to his numerous scientific accomplishments he developed the day age interpretation of Genesis 1 in which the days of creation represent geologic ages When we view the Bible through this lens we find that modern science has not only failed to refute the miracles of Genesis but has in fact provided abundant evidence for their veracity Genesis Revealed A Scientific Examination of the Creation Story takes readers down the twin paths of science and theology to show that they lead us to the same destination Citing a multitude of discoveries in astronomy and

geology Dr Peter Waller makes a compelling case for Guyot's interpretation and for the miracles described in Genesis 1 1 25
