## **Spinal Trauma:**

Spinal Trauma Eric D. Schwartz, Adam E. Flanders, 2007 Written by recognized experts this volume is a comprehensive reference on the use of advanced imaging techniques in the diagnosis and management of spinal trauma. In one cohesive source the book brings together information on state of the art clinical imaging including multidetector CT and high field MRI techniques and the pathophysiology, neurologic evaluation, medical management, surgical treatment and postoperative assessment of spine trauma and spinal cord injury. Also included are cutting edge reviews of experimental imaging techniques and their applications and experimental therapies such as neurotransplantation. More than 700 illustrations including 180 in full color complement the text.

Spine and Spinal Cord Trauma Alexander R. Vaccaro, Michael G. Fehlings, 2011-01-01 Representing the collective efforts of a multinational multidisciplinary panel of spine and spinal cord trauma masters this beautifully illustrated evidence based textbook does more than provide multiple treatment options it offers unique access to insights from recognized spine experts and a thoughtful yet practical review of the most relevant literature and clinical evidence available in the field today. Each chapter centers on pertinent questions and objective reviews of state of the art procedures that guide readers from an evaluation of the evidence through practical recommendations they can easily apply to their own practices. Features: Succinct outline format easy to read and reference. 138 detailed evidentiary tables appear throughout the text. An innovative new classification system for spine trauma developed by The Spine Trauma Study Group composed of 50 internationally recognized spine experts. High quality radiographs and full color drawings and photographs complement the text. Practical recommendations for the treatment of many common spinal injuries including odontoid fractures, central cord injuries and thoraco lumbar flexion distraction injuries. In depth information on everything from intensive care to rehabilitation. Accompanying MediaCenter web content contains 15 narrated videos over one hour of footage of actual procedures by the authors. Spine and Spinal Cord Trauma Evidence Based Management is an invaluable reference for orthopaedic surgeons, neurosurgeons, residents and fellows in those specialties and allied health professionals who care for spine injury patients.
