## Spirit Of Wood:

*Spirit of Wood* Farish Noor, Eddin Khoo, 2012-11-27 With dozens of beautiful photographs and extensive text this Malaysian art book is a testament to the skill and spirituality of Malaysia's traditional woodcarvers. Wood has always played a significant role in the Malay world including the Malay Peninsula as a means of shelter, livelihood, comfort and convenience. Among the living arts of Malaysia, woodcarving is one of the oldest and for centuries woodcarvers enjoyed a prestige that few others did. A master woodcarver was not simply an artist. He had a mystical affinity with his material and through his art he could unlock channel and enhance the semangat or life force inherent in the wood. His works were sought after not only for their beauty but also for the symbolic power and meaning they embodied. In particular, the keris considered the pinnacle of woodcarver's art. Each of the pieces in this catalog of Malaysian art illustrates a specific motif, use of a pattern or form or interpretation of a legend. The woodcarvings range from extremely important and rare pieces such as royal ceremonial objects to wood panels, household objects and elements of traditional Malay architecture.

Cooke, 2019-07-23 To this Eighth Edition of the late Mr William Gardner's *Chemical Synonyms and Trade Names* there have been added some 3 300 new entries principally in the field of plastics, alloys and pharmaceuticals. A number of entries describing products known to the Editors to be no longer commercially available have been deleted with the principal object of keeping the bulk of the book within reasonable bounds but it has been possible to add nearly 400 names to the Index of Manufacturers to be found at the end of the book. The sum of these additions and deletions represents a net increase of about 10 per cent in the scope of this Eighth Edition as compared with its predecessor published in 1971.
