*Selections from the unpublished writings of Jonathan Edwards, ed. by A. B. Grosart* Jonathan Edwards,1865 **Create PROSPERITY** LaTeef Terrell Warnick,2011-02 Creating prosperity begins with the spiritual principles of consciousness Learn to create true lasting prosperity The Law of Attraction is a widely misunderstood concept that focuses on the result of thought and not the cause The Law of Attraction is the most popular term for using the power of visualization and understanding the connection between our thoughts and our experiences But is it truly the most accurate interpretation of how we really experience life In order to examine this idea we must understand a little about the mind Most of psychology and science acknowledge that there is at least a conscious mind and a subconscious mind Freud speaks of the id ego and superego but he is primarily referring to the personality Yogis on the other hand believe that there is a superconscious or universal mind We all have access to the higher level of mind In fact many would go further to suggest that this is the only true mind This is the mind of Spirit or God The rishis believe that there is only one Creator and this Essence is the only source capable of an original thought and power So how does this relate to our conscious minds Well it suggests that no one has ever had an original thought Einstein didn't think up the Law of Relativity It already existed way before he was able to merely crack the code to understand it Similarly all ideas of Newton's Laws of Motion Quantum Physics Electricity Magnetism etc already all exist since the beginning of creation We as man simply are attempting to understand these laws of nature that are the source of creation and the world around us So to come full circle due to a power of maya which is an illusion of individuality we believe ourselves to be separate entities The fact is that we are have always been and will always

be intrinsically connected not just to one another but to the Source of all creation manifestation and the universe itself To go one step further the soul which is immaterial is made in the image and likeness of Spirit which is also immaterial This means that our connection and reality transcends physical creation We are truly spiritual beings Likewise we even transcend the mind Scripture says be still and know that I am God This stillness is more than just keeping the physical body still Through the practice of yoga you learn to still the mind and even the respiration internal organs and ultimately the prana which is the intelligent life force within the physical and astral bodies Samkhya Yoga discusses the 24 principles of creation This is a very intricate discussion but what it suggests is that we don t truly ever attract anything We are creators However we create on a much more subtle level and through the perception of individuality and the illusion of separateness our ability to tap into our highest power and source is filtered or diluted through the ego Thus some who are in tune with the universal mind and infinite power within are able to create or manifest ideas objects experiences etc almost instantaneously as in the cases of the miracles performed by Jesus and many other enlightened masters While the majority of mankind creates or attracts if you prefer ideas objects experiences etc that we sometimes desire but many times do not desire as they don t always suit our pleasures preferences or wants The key to becoming a more effective creator is to learn to still the mind tap into your power source and learn the connection between manifesting the higher frequency vibrations of thought into the grosser vibrations of matter that we perceive as real relative experiences in life Many rivers One Ocean many branches One Tree many paths One Destination many stories One Truth 1 S O U L Publishing
