Spitfire Pilot Air Commodore Geoffrey Stephenson John Shields,2024-11-30 Under cloudless blue skies the Oakwood Cemetery Annex in Montgomery Alabama hosts the largest Commonwealth War Graves Commission cemetery in the United States Most of the graves contain young RAF trainee pilots killed during their flying training at nearby Maxwell and Gunter airfields during the Second World War However there is another grave located at the edge of the plot not from the early 1940s but from 1954 The grave marks the final resting place of a 44 year old senior RAF officer Air Commodore Geoffrey Stephenson CBE It begs the questions who was he and why is he buried there This book sets out to answer both these questions As a result this is the remarkable story of not only Stephenson's life but the people planes and places that would leave an indelible mark on a seasoned fighter pilot After growing up in Lincolnshire and Ireland 18 year old Stephenson joined the RAF in 1928 alongside Douglas Bader who would become a life long friend After leaving Cranwell the pair both joined 23 Squadron In the 1930s Stephenson rose through the ranks to command 19 Squadron a Duxford based Spitfire unit that would see his baptism of fire over Dunkirk in late May 1940 Following the downing of a Junkers Ju 87 Stuka Stephenson was himself shot down and crash landed on the beach at Sangatte After a brief period on the run in France and Belgium Stephenson was taken into captivity spending the next five years as a prisoner of war ending up at the iconic Colditz Castle where ironically he was reunited with his old friend Bader Upon his release in April 1945 Stephenson quickly resumed his RAF career commanding instructing and flying the latest jet fighters both at home and overseas He was aide de camp to two monarchs including escorting a young Queen Elizabeth II during her 1953 Coronation Review However his already eventful career would take a tragic turn In 1954 Stephenson flew to the United States to review their latest acquisitions which included a flight in the supersonic F 100 Super Sabre It would be his last flight Nevertheless Stephenson's legacy lives on at his former base at Duxford in the guise of the Imperial War Museum's immaculately restored Spitfire Mk I N3200 This was the very aircraft in which he force landed on 26 May 1940 Recovered from the French beach N3200 was painstakingly rebuilt and returned to flying condition Today N3200 is often

referred to as a National Treasure This is the biography of a remarkable pilot husband and father revealing the planes he flew the places he visited and the incredible people he met along the way **Spitfire's Forgotten Designer** Mike Roussel,2013-03-01 The Supermarine Spitfire was a classic design well known for its efforts in defending British shores during the Second World War However while Reginald Mitchell is rightly celebrated for his original design of the Spitfire the role of Joe Smith in the development of the Spitfire is often overlooked Smith was an integral member of the design team from the earliest days and on Mitchell's death in 1937 he was appointed design office manager before becoming chief designer Smith's dedicated leadership in the development of the Spitfire during the war as well as his efforts on post war jet aircraft deserve their place in history Charting the fascinating history of Supermarine from 1913 to 1958 when the company ceased its operations in Southampton shortly after Joe Smith's death in 1956 this book tells its story through the eyes of apprentices and many other members of Smith's team Marvellous photographs add to the sense of what it was like to work under Joe Smith at the drawing boards of one of Britain's most famous wartime aviation manufacturers *The Story of the Spitfire* Ken Delve,2016-01-06

In a combat career that spanned the entirety of the Second World War the Spitfire earned a reputation as the iconic fighter that friend and foe alike wanted to fly Affectionately known as the Spit the aircraft played a vital part in helping to lift the morale of the British public at home during the Second World War where many a donation of pots and pans was made to support Spitfire production Yet it was the RAF pilots responsible for flying the Spitfire in combat who knew respected and loved this aeroplane the best In this book author Ken Delve re examines the Spitfire's reputation using a wealth of important primary materials including combat records official trial reports and the personal accounts of those who flew the aircraft The Story of the Spitfire charts the combat evolution of arguably the most important aerial fighting machine of the Second World War **Hurricanes & Spitfire Pilots at War** Terence Kelly,2004-11-19 Most people asked to name one British Second World War airplane would say the Spitfire Yet the Hawker Hurricane flew in greater numbers in more variants and in more theaters than the redoubtable Spitfire Adrian Stewart has researched the evolution of the Hurricane from its 1935 maiden flight through to victory in the Far East in 1945 He brings his story alive by letting those who flew this legendary aircraft tell it as it was After the faltering first steps in the mid 1930s the Hurricane really took off and became hugely popular in the RAF and allied air forces They Flew The Hurricane contains numerous first hand accounts from pilots operating in such diverse campaigns as the Battle of Britain North Africa Russia the Far East and North West Europe from 1940 to 1945 These thrilling vignettes combine to bring to life action in the air **Air Combat Legends:**

In June 1940 the German Army had brought the rest of Europe to its knees Hitler knows that he will have to break us in this island or lose the war If we can stand up to him all Europe may be free and the life of the world will move forward into broad sunlit uplands said Churchill The future of Europe depended on Britain A self confident Herman Goring thought that it would be only a matter of weeks before his planes had forced Britain to surrender The courage resourcefulness and brilliant organisation of the RAF were to prove him wrong By late September 1940 the RAF had proved invincible thanks to the Vickers Supermarine Spitfire It exceeded anything that any other air force possessed RJ Mitchell a shy and almost painfully modest engineer was the genius behind the Spitfire On the 5th March 1936 following its successful maiden flight a legend was born Prize winning historian Leo McKinstry s vivid history of the Spitfire brings together a rich cast of characters and first hand testimonies It is a tale full of drama and heroism of glory and tragedy with the main protagonist the remarkable plane that played a crucial role in saving Britain
