## **The Human Side Of Human Beings The Theory Of Reevaluation Counseling:**

**The Human Side of Human Beings** Harvey Jackins,1978      *The Human Side of Human Beings* Harvey Jackins,1974

*Rethinking Therapeutic Culture* Timothy Aubry, Trysh Travis, 2015-06-05 For the past half century intellectuals and other critics have lamented America's descent into a therapeutic culture or in Christopher Lasch's lasting phrase a culture of narcissism. But is that the case? The essays in this collection take a fresh look at therapeutic culture and its critiques. Rather than a cesspool of self-involvement, therapeutic culture may instead be a productive and meaningful way that people negotiate with issues of culture, society, race, gender, and identity. Most important, the editors and contributors grapple with the historically and socially constructed nature of therapeutic culture and its influence. With its dazzling array of contributors and perspectives, this is a book worth getting off the couch for.

**Emotions and Social Movements** Helena Flam, Debra King, 2007-04-11 Most research on social movements has ignored the significance of emotions. This edited volume seeks to redress this oversight and introduces new research themes and tools to the field of emotions and social movements.

Sociologists and political activists around the world will find this volume to be of great interest due to its wide-ranging approach and its unique emphasis on the role of emotion in protest, dissent, and social movements. **Co-counselling** Katie Kauffman, Caroline New, 2004 The theory behind Co-Counselling argues that emotional expression should be welcomed and that human beings can help each other recover from past distress by taking turns giving and receiving attention. Benefits of the method include the acceleration of personal growth and the reduction of the stresses inherent in the practitioner's role. This accessible book offers a serious challenge to much of what is currently considered good practice in mental health services and succeeds in developing a dialogue between co-counselling and other therapeutic approaches. It provides a thorough introduction to the method, incorporating recent developments in the field and providing a comprehensive account of both the theory and practice. The reader also benefits from inclusion of clinical material outlining the experiences of people from a range of backgrounds, offering evidence of the value of Co-Counselling. Co-Counselling offers a model that has many implications for anyone struggling with emotional problems, particularly those recovering from discrimination, prejudice, and oppression. Counsellors and psychotherapists will find this book to be an invaluable resource which both challenges and stimulates.
