The Oceola Kid:

They Also Write for Kids Suzanne Manizza Roszak, 2022-12-28 Outside the world of children's literature studies children's books by authors of well known texts for adults are often forgotten or marginalized. Although many adults today read contemporary children's and young adult fiction for pleasure others continue to see such texts as unsuitable for older audiences and they are unlikely to cross read children's books that were themselves cross written by authors like Chinua Achebe, Anita Desai, Joy Harjo, or Amy Tan. Meanwhile these literary voices have produced politically vital works of children's literature whose complex themes persist across boundaries of expected audience. These works form part of a larger body of activist writing for children that has long challenged preconceived notions about the seriousness of such books and ideas about who in fact should read them. *They Also Write for Kids: Cross Writing Activism and Children's Literature* seeks to draw these cross writing projects together and bring them to the attention of readers. In doing so this book invites readers to place children's literature in conversation with works more typically understood as being for adult audiences, read multiethnic US literature alongside texts by global writers, consider children's poetry and nonfiction as well as fiction, and read diachronically as well as cross culturally. These ways of reading offer points of entry into a world of books that refuse to exclude young audiences in scrutinizing topics that range from US settler colonialism and linguistic prejudice to intersectional forms of gender inequality. The authors included here also employ an intricate array of writing strategies that challenge lingering stereotypes of children's literature as artistically as well as intellectually simplistic. They subversively repurpose tropes and conventions from canonical children's books, embrace an epistemology of children's literature that emphasizes ambiguity and complexity, invite readers to participate in redefining concepts such as civilization and cultural belonging, engage in intricate acts of cross cultural representation, and re envision their own earlier works in new forms tailored explicitly to younger audiences. Too often disregarded by skeptical adults, these texts offer rich rewards to readers of all ages and here they are brought to the fore.

Race, Music, and National Identity Paul McCann, 2008 *Race Music and National Identity* is the first book length study to examine closely the portrayal of jazz in American fiction during the most critical and dynamic years of the music's development. The principal argument suggests that the discourse on jazz was informed largely by a broad range of anxieties endemic to the turbulent decades of the mid twentieth century. As the United States faced a new crisis in either foreign or domestic policy, writers and intellectuals often used jazz as a forum to change both the public's understanding of the musical tradition as well as the nation's understanding of itself. In many ways the rise of jazz from low to high art was a product of this discourse. The study relies on a close reading of several notable authors including F. Scott Fitzgerald, Langston Hughes, Eudora Welty, Ralph Ellison, and Jack Kerouac, but also responds to a broad range of popular writers from the decade whose contribution to the discourse on jazz has been largely forgotten. This book provides an insightful glimpse into how the United States negotiates and ultimately understands its own cultural artifacts. Paul McCann is an English Professor at Del
