The Consciousness Reformation:

The Consciousness Reformation Robert Wuthnow, 2022-08-19 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 *The Consciousness Reformation* Robert Wuthnow, 2023-11-15 The late 1960s and early 1970s marked an era of profound social experimentation and cultural transformation This period saw an explosion of countercultural movements ranging from communes and alternative family structures to radical political organizations like SDS Students for a Democratic Society and SLA Symbionese Liberation Army Alongside these visible upheavals subtler shifts occurred in societal attitudes toward sexuality race religion and politics reflecting a broader reimagining of fundamental social norms These changes collectively signify a pivotal moment in American history with enduring implications for understanding social conflict and transformation This book seeks to explain the underlying forces driving these shifts by focusing on what we term the new consciousness a cultural evolution that legitimized and encouraged social experimentation Departing from traditional analyses that attribute unrest to economic or institutional strains this study explores symbolic cultural constructions and their role in reshaping societal values By emphasizing how individuals interpret their circumstances rather than solely examining objective conditions we align with theoretical traditions like those of Weber and symbolic interactionism Our inquiry examines four dominant meaning systems in American culture Theism Individualism Social Determinism and Mysticism and their varying relationships with social experimentation aiming to uncover how these symbolic frameworks influence attitudes behaviors and societal change This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 **The Mind of the Master Class** Elizabeth Fox-Genovese, Eugene D. Genovese, 2005-10-17 The Mind of the Master Class tells of America's greatest historical tragedy It presents the slaveholders as men and women a great many of whom were intelligent honorable and pious It asks how people who were admirable in so many ways could have presided over a social system that proved itself an enormity and inflicted horrors on their slaves The South had formidable proslavery intellectuals who participated fully in transatlantic debates and boldly challenged an ascendant capitalist free labor society Blending classical and Christian traditions they forged a moral and political philosophy designed to sustain conservative principles in history political economy social theory and theology while translating them into political action Even those who judge their way of life most harshly have much to learn from their probing moral and political reflections on their times and ours beginning with the virtues and failings of their own society
