THE HUMAN TIME BOMB

The Human Time Bomb

Frederic Denison

The Human Time Bomb:

Living on a Time Bomb Svenja Schöneich, 2022-10-14 Providing a holistic understanding of extensive oil extraction in rural Mexico this book focuses on a campesino community where oil extraction is deeply inscribed into the daily lives of the community members The book shows how oil shapes the space where it is extracted in every aspect and produces multiple uncertainties The community members express these uncertainties using the metaphor of the time bomb The book shows how they find ways to live off the time bomb by using mechanisms of short term coping and long term adaptation and thus developing the capability to determine their lives despite the ever changing challenges Human Chorionic Gonadotropin (hCG) Laurence A. Cole, 2014-12-02 Human chorionic gonadotropin hCG is produced during pregnancy by the embryo It promotes progesterone production by corpus luteal cells It also functions in pregnancy to promote angiogenesis in uterine vasculature it immunologically blunts the invading placental tissue so it is not rejected by the maternal uterine tissues promotes the growth of the uterus in line with the growth of the fetus promotes the differentiation of growing cytotrophoblast cells promotes the quiescence of contractions in the uterine myometrium during the course of pregnancy and also has function in growth and development of fetal organs The first edition described the detailed biology clinical chemistry and clinical perspectives of hCG and associated molecules and examines hCG hyperglycosylated hCG and hCG free subunit 3 separate and independent molecules with totally sovereign physiological functions The second edition will include coverage of the many new discoveries that have been made in the last five years hCG analogues may be the actual driving signal of all human cancers The editor estimates that 40% of the out of date material will be excluded and replaced with 40% of the exciting new findings The book will also have a much clearer pregnancy and cancer focus It provides comprehensive information on hCG from basic science to clinical medicine The second edition will include coverage of the many new discoveries that have been made in the last five years Updated material with new findings in the field **The human time-bomb** Nick Carter, 1972

Digital Interfacing Daniel Black, 2018-10-26 This book takes the interface or rather to interface a process rather than a discrete object or location as a concept emblematic of our contemporary embodied relationship with technological artefacts The fundamental question addressed by this book is How can we understand what it means to perceive or act upon the world as a body artefact assemblage Black works to clarify the role of artefacts of all kinds in human perception and action then considers the ways in which new digital technologies can expand and transform this capacity to change our mode of engagement with our environment Throughout the discussion is grounded in specific technologies some already familiar and some still in development e g new virtual reality and brain machine interface technologies natural user interfaces etc In order to develop a detailed generalizable theory of how we interface with technology Black assembles an analytical toolkit from a number of different disciplines including media theory ethology clinical psychology cultural theory philosophy science and technology studies cultural history aesthetics and neuroscience Science Fiction and Fantasy Literature R.
